

## TOWN COMMISSIONS

The **CAO's Office** ensures that Town services and programs are aligned with Council-approved policies and strategic directions. All commissions report to the CAO's Office.

The **Community Services Commission** is responsible for the management of Town-owned facilities, fire protection and prevention, emergency management, parks, forestry, harbours, cemeteries and the delivery of recreation and cultural services. The commission also provides a corporate link to the Oakville Public Library, Oakville Galleries and Town of Oakville Water and Air Rescue Force.

The **Corporate Services Commission** provides support services to ensure fiscal responsibility, records management, compliance with legislation and regulations, appropriate legal and real estate services and advice, council support, capital facilities management, human resources, environmental strategies and information technology services, to support the Town's operating departments.

The **Planning and Development Commission** is responsible for guiding private development proposals in order to achieve the Town's "Livable Oakville" strategic goal. The commission meets this goal through the development of official plan policies, promotion of economic development opportunities, and review of planning, building, development engineering and site alteration proposals.

The **Infrastructure and Transportation Commission** manages programs and services related to the Town's public works infrastructure, including roads and bridges, storm drainage, traffic control devices and systems, and municipal engineering. It also delivers public transit services, fleet maintenance operations, municipal parking operations and enforcement, and environmental initiatives.
