2) **Footnotes to Commercial Zone Standards**

1. **C1 Zones**

- a) If the land is under more than 1 ownership, all owners shall individually and jointly comply with the coverage and parking provisions, and shall jointly comply with the yard provisions herein.
- b) Any floor area above the first storey may be used only for offices, meeting rooms, neighbourhood or institutional use.
- c) Additional regulations for drive-through facilities:
 - i) minimum distance of 15m shall separate all points of the drive-through stacking lane and order boxes using voice communication (speaker location) from any lot line abutting a residential zone.
 - ii) a solid wood board fence or masonry wall of not less than 1.8m in height shall be provided immediately adjacent to any lot line abutting a lot in a residential zone.

2. **C2 Zones**

- a) If the land is under more than 1 ownership, all owners shall individually and jointly comply with the coverage and parking provisions, and shall jointly comply with the yard provisions herein.
- b) Additional regulations for drive-through facilities:
 - i) minimum distance of 15m shall separate all points of the drive-through stacking lane and order boxes using voice communication (speaker location) from any lot line abutting a residential zone.
 - ii) a solid wood board fence or masonry wall of not less than 1.8m in height shall be provided immediately adjacent to any lot line abutting a lot in a residential zone.

3. **C3R Zone**

- a) **Additional Regulations for Building Heights:**
 - i) Within the area bounded by Dunn Street, Church Street, Reynolds Street, and the rear lot lines of the properties on the south side of Sumner and Dunn Streets: maximum building height - 3 storeys and no more than 10m above grade notwithstanding the building height definition in Section 2, exclusive of roof and mechanical equipment provided that no leaseable floor area exists above maximum building height;
 - ii) Within the area bounded by Maurice Drive, Rebecca Street, Sixteen Mile Creek and the rear lot lines of the properties on the south side of Lakeshore Road West: maximum building height - 3 storeys and no more than 10m above grade notwithstanding the building height definition in Section 2, exclusive of roof and mechanical equipment provided that no leaseable floor area exists above maximum building height;
 - iii) Within the C3R Zone as designated on Map 91 (2): maximum building height - 8.5m including mechanical equipment, however under no circumstances shall the ridge of a pitched roof exceed a height of 12.25m.
- b) **Density:**

Within the area bounded by Maurice Drive, Rebecca Street, Sixteen Mile Creek and the rear lot lines of the properties on the south side of Lakeshore Road West: maximum residential density: 50 units per site hectare.
- c) **Additional yard regulations:**

- i) Front yard:
On lands fronting on Lakeshore Road, Kerr Street and Bronte Road, south of Lakeshore Road: minimum front yard – 0m (6m for a garage).
- ii) Side and Rear Yard:
Where a private garage has its vehicle entrance facing or nearly facing a flankage, the minimum side yard between the private garage and flankage shall be 6m.

4. **C3A Zone**

a) **Building Heights on lots abutting Residential**

- i) Maximum of 11m and for buildings or structures within 23m of the boundary of the residential zone – maximum -5m.

b) **Additional Regulations for Retail Sales Warehouses:**

- i) The sales area is clearly separate from the warehousing or storage area except where the permitted use is a carpet warehouse in which case the warehousing or storage area and the sales area need not be separated;
- ii) There is no display of goods or retail sales within the warehousing or storage area except where the permitted use is a carpet warehouse in which case the display of goods or retail sales are permitted in the warehousing or storage area;
- iii) The warehousing or storage area does not comprise less than 60% of the total floor area of the building or portion thereof occupied by the business, and
- iv) The warehousing or storage area for the purposes of this section shall exclude the area of malls, stairs, elevators, escalators, ventilating shafts, common areas such as mechanical rooms, all basement areas, washrooms, fitting rooms and offices.

c) **Additional Regulations for automobile service stations and car wash facilities operated in conjunction with service stations:**

- i) The regulations set out in the C6 zone apply specifically to automobile service stations and car wash facilities operated in conjunction with service stations providing that car wash facilities are not located on a lot abutting a residential zone and retail propane transfer facilities for the sale of propane to the general

public for automotive and recreational purposes also apply to automobile service stations permitted in the C3A Zone rather than the site specifications contained in this Section.

- d) **No Outside Storage except as follows:**
- i) For new and used automobiles, recreational, motorcycle and truck dealerships and for car, truck and trailer rental and leasing agencies, inventory of new or used vehicles as part of the dealership or agency;
 - ii) For service stations, public garages and tire specialty shops, storage of motor vehicles provided the storage is of a temporary nature and is not storage of impounded, wrecked or dismantled vehicles, and
 - iii) For service stations, public garages or tire specialty shops storage of other merchandise provided that no merchandise display exceeds 3.05m in height, no merchandise is displayed within the daylight area and no merchandise displayed adjacent to a building projects further than 4.57m from the face of the building.

5. **C6 Zones:**

- a) **Additional Regulations for Fuel Pumps:**
- i) Minimum yard abutting a street: 3m;
 - ii) On corner lots, the minimum distance between the nearest fuel pump to a line between a point on the front lot line and a point on the side lot line, each point being 15m from the intersection: 3m.
- b) **Additional Regulations for Canopies:**
- i) Minimum yard: 5m.
- c) **Additional Regulations for Buildings or Structures containing a retail sale of food and sundry use or take-out restaurant:**
- i) On a lot less than 0.3ha in size, the total gross floor area for a building or portion thereof containing a retail sale of food and sundry use or take-out restaurant will not exceed 80m², of which:
 - Maximum gross floor area for the display and retail sale of food and sundry use: 50m²;
 - Maximum gross floor area for take-out restaurant: 16m².
 - ii) On a lot 0.3 ha or greater in size, the total gross floor area for a building or portion thereof containing a retail sale of food or sundry use or take-out restaurant will not exceed 170m², of which:
 - Maximum gross floor area for the display and retail sale of food and sundry use: 95m²;

- Maximum gross floor area for take-out restaurant: 35m².
 - iii) The gross floor area for retail sale of food and sundry use is determined to be the area inclusive of the service counter directly related to the consumer purchase of automotive fuels and products, and any area devoted to public use and the display of goods within the enclosed building, excluding the area devoted to public washrooms;
 - iv) Eating area and tables for the use of customers not permitted.
- d) Additional Regulations for Buildings or Structures with Drive-through facilities:
- i) Minimum distance of 15m shall separate all points of the drive-through stacking lane and order boxes using voice communication (speaker location) from any lot line abutting a residential zone.
 - ii) A solid wood board fence or masonry wall of not less than 1.8m in height shall be provided immediately adjacent to any lot line abutting a lot in a residential zone.
 - iii) Minimum buffer strip abutting a residential zone – 7.62m.
 - iv) Only one (1) drive-through facilities will be permitted, in association with either a retail sale of food and sundry use of take-out restaurant.
- e) Additional regulations for mechanical car washes:
- i) Car wash facilities are restricted to a maximum size of 300m²;
 - ii) Only 1 bay may be used for washing vehicles;
 - iii) Queuing space for not less than 8 vehicles must be provided for ingress to a car washing facility, and for not less than 2 vehicles for egress, and in both cases shall be so located, and appropriately demarcated, so as not to interfere with other operations of the automobile service station or accessory uses.
- f) Additional regulations for automotive uses:
- i) The total gross floor area(s) for any buildings or part thereof that is utilized for the repair function of an automobile service station use is not subject to the maximum gross floor areas as set out in i) and ii) above;
 - ii) Storage areas, and any office area not directly related to the consumer purchase of automotive fuels or products, must be clearly separate from the gross floor areas set out in i) and ii) above by a physical wall barrier;

- iii) Outside storage of motor vehicles is permitted provided the storage is of a temporary nature and is not storage of impounded, wrecked or dismantled;
- iv) Outside storage of automobile related merchandise is permitted provided that no merchandise display exceeds 3.05m in height, no merchandise is displayed closer than 3.05m to any lot line or street line, no merchandise is displayed within the daylight area and no merchandise displayed adjacent to a building projects further than 4.57m from the face of the building.

6. **C7 Zone**

The uses permitted in the C7 zone shall be subject to the regulations provided in the C5 and C6 zones.

43. **PARKING**

1) Minimum Parking Requirements for Commercial Uses

The minimum parking requirements for uses permitted in Commercial Zones shall be as follows:

Zone and Use		Requirements
(a)	C1	- For every 22m ² of ground floor leaseable floor area, one parking space shall be provided; - For every 28m ² of leaseable floor area above or below the ground floor one parking space shall be provided;
(b)	C2	- For every 18m ² of ground floor leaseable floor area, one parking space shall be provided; - For every 28m ² of leaseable floor area above or below the ground floor one parking space shall be provided;
(c)	C3 excluding uses listed below	- For every 28m ² of leaseable floor area, one parking space shall be provided having direct access from a public street other than Lakeshore Road, Randall, Rebecca or Kerr Street;
(d)	C3R	
(i)	Residential and Commercial Residential Uses	
	- Detached, Semi-Detached, Duplex Dwellings	2 off-street parking spaces per unit.

Zone and Use		Requirements
	- Multiple attached and apartment rental	- 1.5 paved parking space per unit of which 0.25 parking spaces per unit shall be specifically designated as visitor parking except for rental accommodation located within the area bounded by Navy, Randall, Alan and Robinson Streets where 1.0 paved parking spaces per unit shall be supplied;
	- Condominium, multiple attached, and maisonettes	- 2.25 paved parking spaces per unit of which 0.25 paved parking spaces per unit shall be specifically designated as visitor parking;
	- Freehold multiple attached	- 2 paved parking spaces per unit which spaces may have access from a private laneway, a street or a public laneway;
	- Condominium apartment	- 2 paved parking spaces per unit of which 0.25 paved parking spaces per unit shall be designated as visitor parking;
	- For all multiple attached dwellings and apartments	Not less than 50% of the required spaces must be within buildings, garages or carports which have 3 walls that are not less than 1m high;
	- For combined commercial residential uses	- The provisions of Section 43(1) and 43(3)(d) (ii) apply to the commercial component and the provisions of Section 43(2) and 43(3)(d)(i) apply to residential uses;
	- For connected commercial residential uses	- For the commercial component of each unit: the provisions of Section 43(1) and 43(3)(d)(ii) shall apply and 1 parking space shall be provided for each 32.6m ² leaseable floor area; - For the residential component of each unit: the provisions of Section 43(2) shall apply and 2 parking spaces shall be provided;
	- For all residential and commercial residential uses	- No parking in the front yard or in a side yard along a flankage nor will there be direct access to parking from Lakeshore Road, Randall, Rebecca, or Kerr Streets;
(ii)	Commercial Uses	
	For the area bounded by Navy, Randall, Allan and Robinson Streets.	- The provision of commercial parking is not required.
	For the area north of Randall Street and bounded by Navy and Allan Streets; for the area bounded by Bronte Creek, Solingate Drive, Belyea and Ontario Streets; and for the area bounded by Speers Road, Maurice Drive, Burnet and Forsythe Streets.	- For every 32.6m ² of leaseable floor area, one parking space shall be provided having direct access from a public street other than Lakeshore Road, Randall, Rebecca or Kerr Streets.

Zone and Use		Requirements
(e)	C3A, including uses listed in clauses (n) to (x) below, when they are located in a multiple occupancy building	- For every 40m ² of leaseable floor area, one parking space shall be provided;
(f)	C4	- For every 22m ² of leaseable floor area, one parking space shall be provided;
(g)	C5, C7 (excluding motels, motor hotels and restaurants)	- For every 22m ² of leaseable floor area, one parking space shall be provide;
(h)	Car washing establishments	- For every 20 off-street spaces, arranged to accommodate queues of automobiles awaiting service;
(i)	Office buildings which may contain accessory uses that occupy up to 20% of the floor area	For every 28m ² of leaseable floor area, one parking space shall be provided;
(j)	Hotels and motor hotels	- In addition to parking required in subsections (n) and (r), one parking space for each bedroom;
(k)	Take-out restaurants	- One parking space for every 4.6m ² of floor area devoted to public use;
(l)	Office buildings which contain medical offices occupying more than 60% of leaseable floor area	One parking space for every 23.2m ² of leaseable floor area;
(m)	Hospitals	- 1 parking space per 50m ² of floor area;
(n)	Cinemas, theatres, public halls, auditoria, stadia, private and commercial schools and other uses (excluding churches and church halls) involving the assembly of persons	- One parking space for every 6 seats and for every other accommodation for 6 persons;

- xix. Visitor parking associated with a residential use may be counted towards parking available for a commercial use to a maximum of 0.25 parking spaces per residential unit.
- xx. Visitor parking associated with a residential use may be provided in any combination of: a parking structure (below and/or above grade), a surface parking area, and/or on a private street.
- xxi. Where a roof top mechanical penthouse and enclosures which exceed 2 metres in height are not screened by an extension of a building's façade, the mechanical penthouse and enclosures must be set back a minimum of 4 metres from all edges of the roof and screened by an architectural treatment.
- xxii. Where an urban square is provided as illustrated on Map UC-1, the maximum building setback shall not apply, provided that the urban square is directly accessible from a public street.

- xxiii. Any awning, canopy and/or similar weather shielding structure, and any restaurant patio, may project to the lot line.
- xxiv. Loading and servicing areas shall not face a public street, and must be screened from the public street, with vehicular access to these areas internal to the site.
- xxv. Garbage and recycling rooms shall be located internal to the serviced building.
- xxvi. Transformer and tele-communications vaults shall be located internal to the serviced building.
- xxvii. Where multiple-attached dwelling units are provided at grade, and share a common wall with an apartment building and/or mixed-use building, the minimum building height shall not apply to the multiple-attached units so long as the tower complies with the height requirements.
- xxviii. Stairs and air vents associated with an underground or above ground parking structure are permitted in any yard.
- xxix. Established grade is defined as the finished floor elevation at grade.
- xxx. The minimum height of a building that only incorporates common amenity space, recreational space and/or similar uses which are ancillary to a permitted residential use shall be at least two storeys.
- xxxi. Notwithstanding section 12 (3) of Zoning By-law 1984-63, balconies are permitted in any yard and the maximum projection does not apply.
- xxxii. Notwithstanding any severance, partition or division of the lands zoned MU4, the provisions of that Zone shall apply to the whole of such lands as if no severance, partition or division had occurred.

c) Definition:

For the purposes of section 47, the following definitions apply:

Urban Square: An Urban Square is a publicly-accessible, hardscaped open space, of at least 300m² in area, with one side at least 10 metres in length.

Main Wall: The primary exterior front, rear or side wall of a building, exclusive of permitted projections and indentations.

d) Map UC-1:

47.1 Mixed Use – MU1 Zone (Permitted Uses and Regulations)

a) Permitted Uses:

- i. All uses permitted in the C3 zone except: automobile-related uses, service stations, service stations with car washes, and drive-through facilities either stand alone or accessory to a permitted use,
- ii. Apartment house(s) and/or apartment building(s),
- iii. Multiple-attached dwelling units that share a common wall with an apartment building, and/or mixed-use buildings, and/or another multiple-attached dwelling permitted in the MU1 zone,
- iv. Outdoor patios,

- v. Parks, playgrounds, urban squares, recreational areas and publicly-operated community centres,
- vi. A Town-operated public parking lot in a structure located either below or above grade, in which a charge may be made for parking.

b) General Regulations:

- | | | |
|-------|--|--|
| i. | Building setback of a main wall to any public street: | Minimum: 0 metre
Maximum: 2 metres |
| ii. | Below grade setbacks: | Minimum 0 metres |
| iii. | Unit size of office use if located on ground floor: | See Figure DT-1 |
| iv. | Neighbourhood Store floor area, per unit: | Maximum 300 m ² |
| v. | Grocery or Food Store, Restaurant floor area, per unit: | Maximum 500 m ² |
| vi. | Ground floor height, measured from top-of-slab to top-of-slab: | Minimum 4.5 metres |
| vii. | Height of rooftop mechanical and elevator penthouse, rooftop equipment, and stair towers: | Maximum 6 metres |
| viii. | Height of architectural features (i.e. parapets and decorative elements) anywhere on a roof, including above a mechanical penthouse and stair tower: | Maximum 2 metres |
| ix. | Parking ratio for residential uses: | A minimum of 1.5 parking spaces per dwelling unit, inclusive of visitor parking. |
| x. | Surface Parking Area: | Shall not be permitted in any yard between a building and a public street and shall occupy no more than 20% of the site area where the parking area is not covered by, or integrated into, a building. |
| xi. | Projection of stairs, porches, and at- | To a maximum of 0.3 metres from |

- grade terraces, with or without foundation, beyond the main wall of a building:
- xii. A step back to a main wall that faces a public street is not permitted below a height of 12 metres.
 - xiii. As identified on Figure DT-1, a “continuous” main wall requires the ground floor façade to occupy at least 75% of the length of the lot line it faces. An “intermittent” main wall requires the ground floor façade to occupy at least 40% of the length of the lot line it faces.
 - xiv. Building heights shall be a minimum of 8 metres, and a maximum of 17 metres, exclusive of mechanical penthouses, stair towers and architectural features such as parapets.
 - xv. Building height shall be measured to the highest metric height of the building exclusive of mechanical penthouse, elevator tower, stair tower and/or any stepped back or terraced portions of the same building which may be below the minimum height.
 - xvi. Where commercial and/or office units are located at-grade, a minimum of one principal building entrance to each unit shall be directly accessible from, and oriented towards, a public street. A maximum of one building entrance to each unit shall be oriented towards a yard other than the public street yard.
 - xvii. Where a restaurant (or similar use) is provided at-grade, the maximum setback from a street shall be no greater than 5 metres.
 - xviii. Residential, office and commercial uses are permitted to be located on the same floor. Other than for a multiple-attached development, residential dwelling units are not permitted at-grade.
 - xix. Visitor parking associated with a residential use may be provided in any combination of: a parking structure (below and/or above grade), a surface parking area, and/or on a private street.
 - xx. Where a roof top mechanical penthouse and enclosures which exceed 2 metres in height are not screened by an extension of a building’s façade or wholly enclosed by a rooftop architectural treatment, the mechanical penthouse and enclosures must be set back a minimum of 4 metres from all edges of the roof and screened by an architectural treatment.
 - xxi. Any awning, canopy and/or similar weather shielding structure, and any restaurant patio, may project to the lot line.
 - xxii. Loading and servicing areas shall not face a public street, and must be screened from the public street, with vehicular access to these areas internal

to the site.

- xxiii. Garbage and recycling rooms shall be located internal to the serviced building.
- xxiv. Transformer and tele-communications vaults and pads shall not project towards a public street beyond the main wall of the building.
- xxv. Stairs and air vents associated with an underground or above ground parking structure are permitted in any yard.
- xxvi. Established grade is defined as the finished floor elevation at grade.
- xxvii. Notwithstanding section 12 (3) of Zoning By-law 1984-63, balconies and/or open-air terraces are permitted in any yard and the maximum projection does not apply.
- xxviii. Notwithstanding any severance, partition or division of the lands zoned MU1, the provisions of that Zone shall apply to the whole of such lands as if no severance, partition or division had occurred.

c) **Definition:**

For the purposes of section 47.1, the following definitions apply:

“Main Wall”: The primary exterior front, rear or side wall of a building, exclusive of permitted projections and indentations.

Map DT-1:

47.2 Mixed Use – MU3 Zone (Permitted Uses and Regulations)a) Permitted Uses:

- i. All uses permitted in the C3 zone except: automobile-related uses, service stations, service stations with car washes, and drive-through facilities either stand alone or accessory to a permitted use,
- ii. Apartment house(s) and/or apartment building(s),
- iii. Multiple-attached dwelling units that share a common wall with an apartment building, and/or mixed-use buildings, and/or another multiple-attached dwelling permitted in the MU3 zone,
- iv. Outdoor patios,
- v. Parks, playgrounds, urban squares, recreational areas and publicly-operated community centres.

b) General Regulations:

- | | | |
|-------|---|---------------------------------------|
| i. | Building setback of a main wall to any public street: | Minimum: 0 metre
Maximum: 2 metres |
| ii. | Below grade setbacks: | Minimum 0 metres |
| iii. | Office use floor area, per unit: | Maximum 300 m ² |
| iv. | Neighbourhood Store floor area, per unit: | Maximum 300 m ² |
| v. | Grocery or Food Store, Restaurant floor area, per unit: | Maximum 500 m ² |
| vi. | Ground floor commercial floor area, per unit: | Minimum 50 m ² |
| vii. | Ground floor height, measured from top-of-slab to top-of-slab: | Minimum 4.5 metres |
| viii. | Height of rooftop mechanical and elevator penthouse, rooftop equipment, and stair towers: | Maximum 6 metres |
| ix. | Height of architectural features (i.e. parapets and decorative elements) anywhere on a roof, including above a mechanical penthouse and stair | Maximum 2 metres |

tower:

- x. Parking ratio for mixed use: A minimum of 1.35 parking spaces per dwelling unit, of which 0.25 parking spaces per unit shall be specifically designated as visitor parking.
- xi. Surface Parking Area: Shall not be permitted in any yard between a building and a public street and shall occupy no more than 20% of the site area where the parking area is not covered by, or integrated into, a building.
- xii. Projection of stairs, porches, and at-grade terraces, with or without foundation, beyond the main wall of a building: To a maximum of 0.3 metres from any public street (front lot line).
- xiii. A step back to a main wall that faces a public street is not permitted below a height of 12 metres.
- xiv. Building height shall be a minimum of 19 metres (6 storeys), and a maximum of 29 metres (8 storeys), exclusive of mechanical penthouses, rooftop equipment, elevator tower, stair tower and/or architectural features such as parapets.
- xv. Building height where bonussing is applied shall be a maximum of 37.5 metres (10 storeys), exclusive of mechanical penthouses, rooftop equipment, elevator tower, stair tower and/or architectural features such as parapets.
- xvi. Building height shall be measured to the highest metric height of the building exclusive of mechanical penthouses, rooftop equipment, elevator tower, stair tower and/or any stepped back or terraced portions of the same building which may be below the minimum height.
- xvii. Where commercial uses are required at-grade, the building's base shall occupy at least 75% of the length of the frontage facing a public street.
- xviii. Where commercial and/or office units are located at-grade, a minimum of one principal building entrance to each unit shall be directly accessible from, and oriented towards, a public street. A maximum of one building entrance to each unit shall be oriented towards a yard other than the public street yard.

- xix. Where commercial and/or office uses are located at-grade, at least 60% of the gross area of the main wall facing a public street must be glazed and predominantly transparent (i.e. windows and doors). This provision shall only apply to that portion of the wall that has a height between 0 and 4.5 metres.
- xx. Where commercial and/or office uses are permitted at-grade it may be in combination with a permitted residential use.
- xxi. A minimum of 300 m² of commercial and/or office uses is required at-grade.
- xxii. Residential, office and commercial uses are permitted to be located on the same floor. Other than for a multiple-attached development, residential dwelling units are not permitted at-grade.
- xxiii. Visitor parking associated with a residential use may be provided in any combination of: a parking structure (below and/or above grade), a surface parking area, and/or on a private street.
- xxiv. Visitor parking associated with a residential use, and client parking associated with a commercial and/or office use, may be provided in any combination of: below grade and/or a surface parking area and may be used for any combination of residential, commercial, and/or office uses.
- xxv. Where a roof top mechanical penthouse and enclosures which exceed 2 metres in height are not screened by an extension of a building's façade or wholly enclosed by a rooftop architectural treatment, the mechanical penthouse and enclosures must be set back a minimum of 4 metres from all edges of the roof and screened by an architectural treatment.
- xxvi. Any awning, canopy and/or similar weather shielding structure, and any restaurant patio, may project to the lot line.
- xxvii. Loading and servicing areas shall not face a public street, and must be screened from the public street, with vehicular access to these areas internal to the site.
- xxviii. Garbage and recycling rooms shall be located internal to the serviced building.
- xxix. Transformer and tele-communications vaults and pads shall not project towards a public street beyond the main wall of the building.
- xxx. Stairs and air vents associated with an underground or above ground parking structure are permitted in any yard.

- xxxii. Established grade is defined as the finished floor elevation at grade.
- xxxiii. Notwithstanding section 12 (3) of Zoning By-law 1984-63, balconies and/or open-air terraces are permitted in any yard and the maximum projection does not apply.
- xxxiiii. Matters which are to be provided pursuant to Section 37 of the *Planning Act* R.S.O. 1990, c.P.13 as amended, in order to permit the increased height authorised on the lands zoned Mixed Use Three (MU3) are as follows:
- a. Section 37 Agreement – The owner of the subject lands shall enter into one or more agreements with The Corporation of the Town of Oakville pursuant to Section 37 of the *Planning Act* to the satisfaction of the Town to secure the facilities, services, and matters referred to below, which agreement or agreements will be registered against the title to the lands to which this By-law applies in the manner and to the extent specified in such agreements. The owner of the subject lands in accordance with the subject agreements referred to herein shall provide community benefits in the form of one or more of monetary or other contributions to the Town for the purposes of eligible community benefits identified in the Town's Official Plan.

Zoning By-law compliance for the purpose of building permit issuance for height in excess of the regulations of the Mixed Use Three (MU3) zone is dependent upon compliance with the terms of this by-law and execution and satisfaction of the provisions of the terms of an agreement under Section 37 of the *Planning Act*, R.S.O. 1990, c.P.13.

- xxxv. Notwithstanding any severance, partition or division of the lands zoned MU3, the provisions of that Zone shall apply to the whole of such lands as if no severance, partition or division had occurred.

c) Definition:

For the purposes of section 47.2, the following definitions apply:

“Main Wall”: The primary exterior front, rear or side wall of a building, exclusive of permitted projections and indentations.”

47.3 Mixed Use – MU2 Zone (Permitted Uses and Regulations)

a) Permitted Uses:

- i. All uses permitted in the C3 zone except: automobile-related uses, service stations, service stations with car washes, and drive-through facilities either stand alone or accessory to a permitted use,

- ii. Apartment house(s) and/or apartment building(s),
- iii. Outdoor patios,
- iv. Parks, playgrounds, urban squares, recreational areas and community centres,
- v. A public parking lot in a structure located either below grade, at grade, or above grade,
- vi. Private schools, commercial schools, private career colleges, community colleges, nursing homes, art galleries, museums, and libraries.

b) General Regulations:

- i. Building setback of a main wall to:

Oak Park Boulevard	Minimum of 0 metres, and a maximum of 2.5 metres, for a minimum of 80% of the length of the main wall.
Public streets or lanes	Minimum: 0 metres
- ii. Below grade setbacks: Minimum 0 metres
- iii. Office use floor area, per unit: Maximum 300 m²
- iv. Neighbourhood Store floor area, per unit: Maximum 300 m²
- v. Grocery or Food Store, Restaurant or café floor area, per unit: Maximum 500 m²
- vi. Ground floor commercial floor area, per unit: Minimum 50 m²
- vii. Ground floor height, measured from floor to floor: Minimum 4.3 metres
- viii. Height of rooftop mechanical and elevator penthouse, rooftop equipment, stair towers, and rooftop architectural elements, above the ceiling of the top floor: Maximum 6 metres
- ix. Height of architectural features (i.e. parapets and decorative elements) anywhere on a roof, including above a mechanical penthouse and stair tower: Maximum 2 metres

- x. Rooftop screening: Where a rooftop mechanical penthouse and enclosures which exceed 2 metres in height are not screened by an extension of the building's façade or wholly enclosed by a rooftop architectural treatment, the mechanical penthouse and enclosures must be set back a minimum of 4 metres from all edges of the roof and screened by an architectural treatment.
- xi. Parking ratio for residential uses: A minimum of 1.25 parking spaces per dwelling unit, inclusive of visitor parking.
A maximum of 1.5 parking spaces per dwelling unit, inclusive of visitor parking.
- xii. Location of visitor parking: Visitor parking associated with a residential use, and client parking associated with a commercial and/or office use may be provided in any combination of: a parking structure (below or above grade), a surface parking area, and/or on a private street, and may be used for any combination of residential, commercial, and/or office uses.
- xiii. Parking ratio for commercial uses: Minimum of 1 parking space per 32.6 m² of leasable floor area.
Maximum of 1 parking space per 28 m² of leasable floor area.
- xiv. Commercial Visitor Parking: Visitor parking associated with a residential use may be counted towards parking available for a commercial use to a maximum of 0.25 parking spaces per residential unit.
- xv. Surface Parking Area: Shall not be permitted in any yard between a building and a public street and shall occupy no more than 20% of the site area where the parking area is not covered by, or integrated into, a building.

- | | | | | | |
|---|--|---------|-----------------------|---------|-----------------------|
| xvi. Projection of stairs, porches, and at-grade terraces, with or without foundation, beyond the main wall of a building: | To a maximum of 0.3 metres from any public street (front lot line). | | | | |
| xvii. Main Wall façade along Oak Park Boulevard: | A continuous main wall shall occupy at least 85% of the length of the frontage facing a public street. | | | | |
| xviii. Building Height exclusive of mechanical penthouses, rooftop equipment, elevator tower, stair tower and/or architectural features such as parapets: | <table border="0"> <tr> <td style="padding-right: 10px;">Minimum</td> <td>13 metres (4 Storeys)</td> </tr> <tr> <td>Maximum</td> <td>22 metres (6 Storeys)</td> </tr> </table> | Minimum | 13 metres (4 Storeys) | Maximum | 22 metres (6 Storeys) |
| Minimum | 13 metres (4 Storeys) | | | | |
| Maximum | 22 metres (6 Storeys) | | | | |
| xix. Access to commercial units: | Where commercial and/or office units are located at-grade, a minimum of one principal building entrance to each unit shall be directly accessible from, and oriented towards, a public street. A maximum of one building entrance to each unit shall be oriented towards a yard other than the public street yard. | | | | |
| xx. Uses at grade: | Where commercial and/or office uses are located at-grade, at least 60% of the gross area of the main wall facing a public street must be glazed and predominantly transparent (i.e. windows and doors). This provision shall only apply to that portion of the wall that has a height between 0 and 4.5 metres. | | | | |
| xxi. Location of uses: | Office and commercial uses are permitted to be located at-grade. Residential dwelling units, with the exception of guest suites, are not permitted at-grade. | | | | |
| xxii. Weather shielding structures: | Any awning, canopy and/or similar weather shielding structure, and any restaurant patio, may project to the lot line. | | | | |
| xxiii. Loading areas: | Loading and servicing areas shall not face a public street, and must be screened from the public street, with vehicular access to these areas internal to the site. | | | | |

- xxiv. Garbage and Recycling Facilities: Garbage and recycling rooms shall be located internal to the serviced building.
- xxv. Transformer and Telecommunications: Transformer and tele-communications vaults and pads shall not project towards a public street beyond the main wall of the building.
- xxvi. Parking Structures: Stairs and air vents associated with an underground or above ground parking structure are permitted in any yard.
- xxvii. Balconies and open air-terraces: Notwithstanding section 12 (3) of Zoning By-law 1984-63, balconies and/or open-air terraces are permitted in any yard and the maximum projection does not apply.
- xxviii. Roof-top terrace: Maximum coverage of 50% of the roof area. Notwithstanding 47.3 b) viii) the maximum height of any trellis, pergola, fence or similar structure associated with a roof-top terrace shall be 3 metres.
- xxix. Notwithstanding any severance, partition or division of the lands zoned MU2, the provisions of that Zone shall apply to the whole of such lands as if no severance, partition or division had occurred.

c. Definitions:

For the purposes of section 47.3, the following definitions apply:

“Established Grade”: The finished floor elevation at grade.

“Main Wall”: The primary exterior front, rear or side wall of a building, exclusive of permitted projections and indentations.

“Roof-top Terrace”: an outdoor common area located on the roof of a building, which is intended primarily for leisure and recreational purposes, and may include landscaped areas, patios, seating areas, and/or communal play areas.”

Note: Next Section is Section 56
