

Appendix to HPAQB Section 4 Emission Reporting Form

Facility Name: _____ Emission Report Date: _____

Substance Information (source and process information and emissions of health-risk air pollutants for each process/source)

Stack Information

Stack ID		
Description of stack		
Process description		
Stack orientation		
Is the stack capped?		
Height above ground (m)		
Equivalent diameter (m)		
Average exit velocity (m/s)		
Average exit temperature (°C)		
Latitude or UTM Northing		
Longitude or UTM Easting		

Provide UTM or latitude and longitude in decimal degrees accurate to five decimal places or in dd mm ss.n format where seconds are accurate to one decimal place.

Stack ID: _____

Health-risk air pollutants	Basis of estimate (name or title of method)	Daily avg. emissions (kg/day)	Annual avg. emissions (kg/year)	Daily worst-case emissions (kg/day)	Annual worst-case emissions (kg/year)
PM _{2.5}					
NO _x					
SO ₂					
NH ₃					
VOCs
