**Re:** Memo on Ongoing Stage 1 Archaeological Assessment (AA) Report for Outstanding Land within Draft Plan of Subdivision 24T-16006/1313.08, within the Town of Oakville

---

Archeoworks Inc. is currently undertaking a Stage 1 Archaeological Assessment (AA) for outstanding lands not previously subjected to either a Stage 1 or Stage 2AA within Draft Plan of Subdivision 24T-16006/1313.08 (see Figure 1 below). This Stage 1AA is being undertaken in accordance with the 2011 Standards and Guidelines for Consultant Archaeologist (2011 S&G) published by the Ministry of Tourism, Culture and Sport.

Preliminary results gathered to date, including the review of satellite imagery, have revealed the subject lands have undergone extensive grading activities which would have resulted in severe damage to the integrity of any archaeological resources which may have been present within the study area and, thus, would eliminate the requirement for additional archaeological assessment. To confirm these disturbances encompass the full extent of the study area, a field inspection of ground conditions with no snow coverage is required; this inspection outstanding. A final Stage 1AA report with conclusive recommendations will be available once ground conditions are amenable for inspection (i.e.: snow has melted).
