- This meeting is being recorded.
- Please mute your microphone until the Q&A period.
- Thank you for your cooperation and participation!

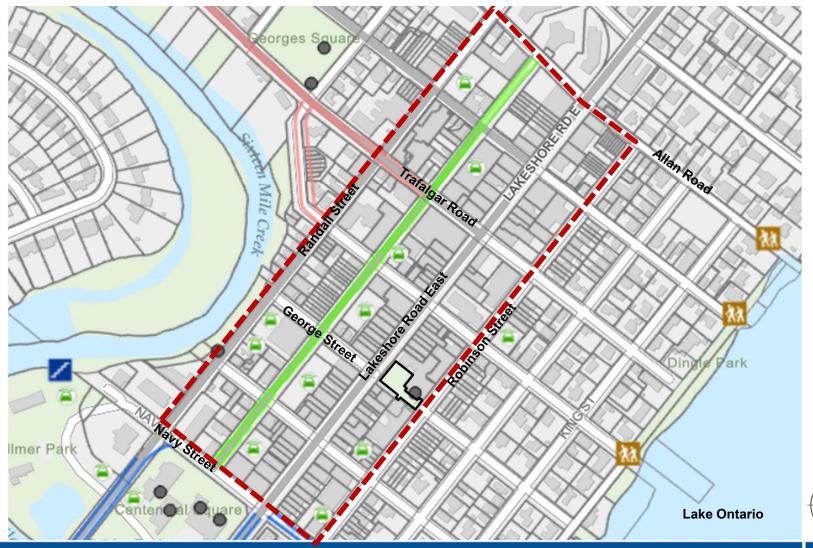

## **Agenda**

- 1. Introductions
- 2. Background/Context
- 3. Scope Changes
- 4. Waterproofing Technical Requirements
- 5. Optimal Schedule/Construction Staging Plan
- 6. Mitigative Strategies during Construction
- 6. Next Steps
- 7. Q&A/Discussion

**Existing Towne Square Design (Today)** 

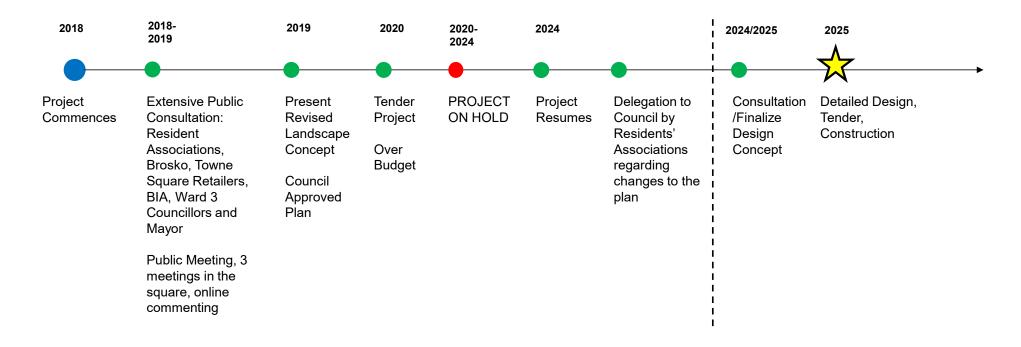

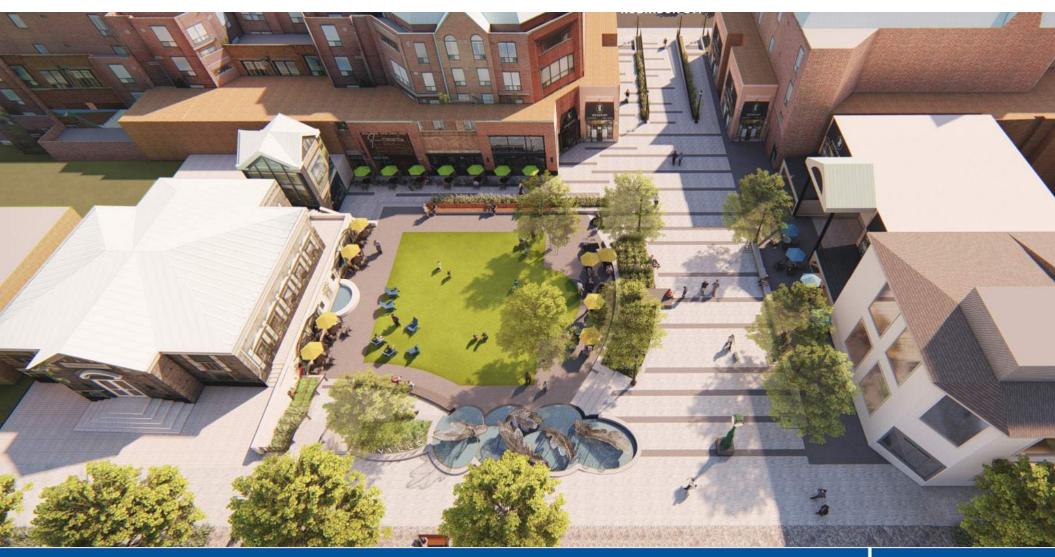

**Programmed Uses at Towne Square** 

#### **Background-Project Timeline**

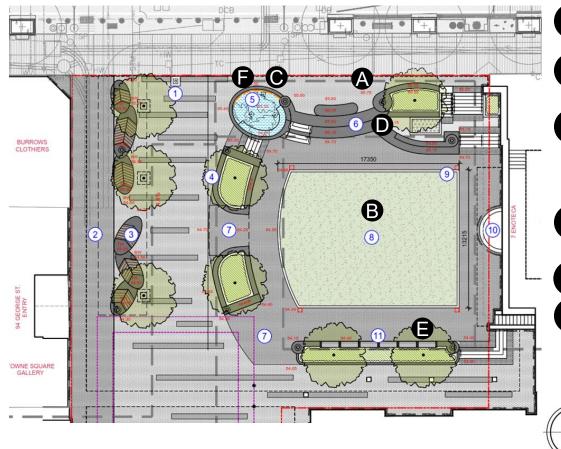

# 2024 Delegation Key Take-Aways

- Simple and Functional
- Flexible
- Modest Water Feature
- Flexible Seating/Steps for Seating
- Trees and Greenery
- 'Instagrammable' Moment

- A Simple and Functional: Permeability from sidewalk
- B Flexible: Slightly larger square/promenade connection
- Modest Water Feature: Significantly scale down and flexible for seasonal plantings/displays during the winter months
  - Flexible Seating/Steps for Seating:
    Additional seating, mezzanine, benches
- Trees and Greenery
  - 'Instagrammable' Moment: Oak Leaves combined with 'Oakville' identifier for a stronger visual impact

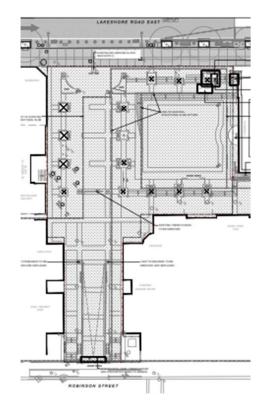

## **Scope Changes since February 2025**

- 1. Waterproofing Replacement
- 2. Relocation of Mechanical Equipment
- 3. Addition of A/V Equipment
- 4. Addition of Security Cameras
- 5. Relocation of Digital Sign
- 6. Renovation of Lionhead Fountain

## Waterproofing & Technical Requirements

- 1. Strata Agreement/Jurisdiction
- 2. Waterproofing Membrane Life Cycle
- 3. Replacement/Timing/Opportunity
- 4. Installation Requirements
- Explored Winter Construction/Premium Cost/Not Recommended
- 6. Explored Project Schedule Options

# Optimal Schedule (Jan – Nov 2026)

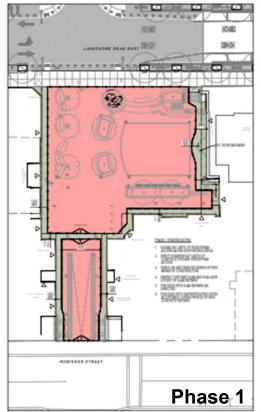

Phase 1 (January 1 - April 30)	Schedule	# Weeks	
Demolition, Removals of Top Works (Core)	January 1 - February 2	4.0	
Strip Existing Waterproofing and Removals	February 2 - February 23	3.0
