Oakville, Ontario, L6M 3L1

## **115 TRAFALGAR ROAD – WASTE MANAGEMENT BRIEF**

### **Project Description**

The proposed development at 115 Trafalgar Road will consist of a total of 12 residential units located on the second to sixth floors and 3 retail units of 2480 sq ft total on the ground floor. The building is six stories above grade, with car park, entrance, lobby, garbage and mechanical rooms at the ground floor level.

The building pedestrian main entry and lobby are in the middle of the building and accessed directly from the Church Street sidewalk. The carpark entrance is located on the south most corner of the development facing Trafalgar Road. The 3 retail entrances are facing Trafalgar Road.

### **Garbage, Recycling and Organic Waste Collection**

The garbage room is located at ground floor level having access from a service corridor to the street. There is a garbage chute in each residential level that ends directly in a tri-sorter inside the garbage room.

It is proposed that Garbage collection will be done by Halton Region using a rear-load collection vehicle with Curbside collection at Church Street. Garbage Room will be monitored by the building superintendent & totes changed out if required. Black totes will be taken to curb side on the designated day prior to 7am, by the building superintendent. Totes will be lined up at the edge of the road curb along Church St as indicated on the site plan. Empty totes will be collected by the building superintendent prior to 5pm the same day and returned to the garbage rooms.

The room will contain storage for

- 4 x 95gal garbage totes
- 95gal recycling totes
- 95gal green waste totes
