# **INTRODUCTION**

## **1.1 MESSAGE FROM FACILITY MANAGERS AND SUPERVISORS**

Facility staff recognize the need to clarify the town's and department's expectations of its part time employees and have prepared this handbook to establish clear and reasonable standards of conduct expected of all employees and provide guidance in the determination of appropriate conduct in the workplace.

This is a compilation of principles contained in various town documents and departmental policies, plans and practices. It is meant to support, but not replace, the use of good judgment regarding personal and professional conduct. In the absence of a specific policy or regulation does not relieve any employee from the responsibility to exercise the highest standards in those situations.

Specific procedural action related to policies and daily operations will be covered in depth during training and orientation sessions.

# **CORPORATE AND DEPARTMENT GUIDELINES AND EXPECTATIONS**

## **2.1 RESPECTFUL WORKPLACE (REFERENCE: HR-MNG-005-002)**

The town is dedicated to creating an environment where there is a sense of belonging and where employees consistently meet our values of accountability, dedication, honesty, innovation respect and teamwork. We all have a responsibility to create a respectful working environment by:

- Respecting the town's policies and procedures that create safe and secure working environments.
- Demonstrating the town's values of honesty and respect.
- Showing courtesy and self-discipline in action and words.
- Seeking solutions to problems.
- Acting in a manner which results in a positive and supportive atmosphere.

We each play a positive role in making all town workplaces safe, healthy and respectful by preventing, identifying and reporting discrimination, harassment and workplace conflict. The town's Respectful Conduct Policy includes the following procedures:

Respectful Conduct Procedures	(HR-MNG-008-002)
Rzone Procedure	(HR-MNG-008-001)
Accommodation Procedure	(HR-MNG-008-003)

## **2.2 VIOLENCE IN THE WORPLACE (REFERENCE: HR-MAN-005-002)**

In keeping with the Occupational Health and Safety Act and Bill168, the town has updated our Occupational Health and Safety Policy to include a Workplace Violence Procedure. The purpose of the new procedure is to address threats, personal harassment or violence between employees, and employees and the public, as well as protect employees from domestic violence if it enters the workplace.

Violence in the workplace is not tolerated for any reason. Violence may include any act against an employee which: creates a hostile work environment; negatively affects the employee either physically or psychologically; includes physical or verbal assault, threats, coercion, intimidation and all forms of harassment.

There are four types of violence: stranger violence (robbery or assault by an outside person), client/service provider violence (assault of a worker by a member of the community), employee violence (assault by fellow employee/former employee) and domestic violence (assault by a family member).

### **DEFINITIONS**

#### **Harassment**

Workplace Harassment includes offensive, intimidating, demeaning, hurtful, malicious or threatening comments or conduct towards another person. It is the impact of the behaviour on

the recipient that determines the existence of harassment (as prohibited by the Code). Any person who behaves in a manner which he or she should reasonably know (or is told) is unwelcome may be guilty of harassment in accordance with the Policy and the Code.

### **Discrimination**

Includes but is not limited to unequal treatment based on one or more of the prohibited grounds, except where conduct is permitted under the Code (i.e., undue hardship). Discrimination also includes failure to provide appropriate employment accommodation. Discrimination can be intentional or unintentional, direct or indirect, but the result has an adverse impact on the prohibited grounds.

### **Sexual harassment**

Occurs when an employee receives unwelcome sexual attention from another employee, and such comment or behaviour is known or should reasonably be known to be unwelcome, or an employee is threatened or penalized by a loss of job, or by a denial of advancement, monetary raise or other employment benefit for refusing to comply with sexual demands by a person in a position of authority who knows or should reasonably know that the sexual attention is unwelcome.

## **2.3 CUSTOMER CONDUCT (REFERENCE: G-COM-003-003)**

As staff we provide the best customer service possible and are empowered to make decisions to ensure that each customer experience is meaningful, fair and respectful.

Equally, our customers are responsible for behaving in a respectful manner. However, you may have experienced customers who crossed the line because their behaviours or demands are unacceptable.

In response, we put together a Customer Conduct Procedure to deal with unacceptable conduct by customers to staff and a new internal online form to report and track issues. The procedure gives staff a process to deal with customers whose conduct is unacceptable and includes escalating actions, as appropriate.

### **WHAT IS UNACCEPTABLE CUSTOMER CONDUCT?**

Examples include:

- Verbal: threats, harassment, inappropriate language
- Physical: aggression, throwing articles in a deliberate manner, hitting another person
- Illegal: consumption of alcohol/drugs; theft; weapons; vandalism
- Violating town permits, policies, by-laws
- Persistently demanding responses within unreasonable timeframes
- Repeatedly refusing to accept the town cannot provide a particular service/action on an issue
- Persistently contacting the town about the same matter when it has been considered and dealt with
- Repeatedly sending phone calls, emails, visits, letters, after being asked not to do so
- More examples are in the Customer Conduct Procedure.

The key difference between a difficult customer and unacceptable conduct is whether the behaviour or demand, because of its nature or frequency, is having a negative impact on staff's ability to provide programs and services to others and/or is causing distress or disruption without proper cause.

## **HOW TO REPORT UNACCEPTABLE CUSTOMER CONDUCT?**

Submit a Customer Conduct Report form located on the main page of Portico. The form is internal. Include the key details and facts. Stay objective when reporting the issue.

The form automatically routes to your supervisor/manager for follow-up. Their follow-up could include:

- Talking to you to find out more details about the issue
- Asking your team to monitor any future issues
- Limiting the customer's communication (ex. assigning one contact person)
- Your supervisor/manager will let you know the outcome

## **WHAT ABOUT RZone?**

The RZone procedure was used to deal with some of these issues in the past, but it didn't go far enough to handle all types of unacceptable customer conduct. The RZone procedure has been updated and now applies only to unacceptable conduct between members of the public. Reporting incidents can be done through an online form on the town's website. We will still use the RZone logo as a visual reminder that we are committed to a respectful environment for everyone.

### **R Zone (Zero Tolerance) (Reference: HR-MNG-008-001)**

In order to ensure a safe work, play and recreation environment for staff and the public, the Facility Services and Recreation and Culture Departments have zero tolerance for violence, vandalism and inappropriate behaviour in its programs, facilities or properties. It will take appropriate action where necessary to deal with these incidents. The R Zone program provides staff and users specific guidelines and procedures to follow in order address the above behaviour. This procedure should be used when inappropriate behaviour occurs between members of the public.

This procedure applies to all users of Parks, Recreation and Culture programs, facilities and properties including but not limited to patrons, guests, spectators, fans, coaches, players, and parents. It covers structured (i.e. permit issued) and unstructured (i.e. no permit issued) activities.

Inappropriate behaviour and violence for the purpose of this procedure includes, but is not limited to, the following behaviours:

- Loud verbal assaults directed at participants, officials, members of the public

deemed to be aggressive or intimidating or having the potential of inciting violence.

- Threats and/or attempts to intimidate.
- Throwing of articles in a deliberate or aggressive manner.
- Aggressive approaches to another individual (physical/verbal assault).
- Physical striking of another individual.
- Attempts to goad or incite violence in others.
- Theft of property.
- Possession of weapons.
- Vandalism to building or property owned or leased through the Parks and Open Spaces or Recreation and Culture Departments.
- Refusal to follow the rules outlined by the Town of Oakville.
- Racial or ethnic slurs.
- Illegal consumption of alcohol or drugs.
- Harassment (“engaging in a course of vexatious comment or conduct that is known or ought reasonably to be known to be unwelcome” as defined by the Ontario Human Rights Code).
- Contravention of Town by-laws or policies.

The town’s primary concern is the safety of the service users and its staff. If at any time users or staff feels personally threatened, they are to call the police immediately. It is **NOT** the expectation that staff or users put themselves at risk or jeopardize one’s safety in dealing with any perceived or real situation.

Patrons of town facilities are to report acts of violence, vandalism or inappropriate behaviours using the inappropriate Behaviour Reporting form within 24 hours, which can be done online, through email, in person or by phone.

If at any time members of the public feel personally threatened, they are to call the police immediately.

#### **REPORTING AN INCIDENT – by staff that has witnessed an incident**

- Report acts of inappropriate conduct to the most senior staff person present at the incident.
- Without jeopardizing anyone’s safety, advise the individual or user group to stop the activity immediately or they will be asked to leave (verbal warning).
- If the individual or user group does not cooperate, inform them they are now trespassing, and the police will be called.
- If they refuse to leave, call the police, and wait for them to arrive while ensuring that you and any others in jeopardy, are in a safe location.
- Complete the Inappropriate Behaviour Reporting form within 24 hours of the incident.

Organizations dealing directly with incidents are required to inform the department of a resolution within 30 days.

## **CONSEQUENCES OF NON-COMPLIANCE**

Individuals who engage in any unacceptable behaviour, as defined in this procedure, may, depending on the severity, be removed immediately from the premises and if necessary, a suspension for a period of time. The suspension may apply to all programs, facilities and properties, if warranted. Length of suspension will be determined by a committee and will depend on the severity of the situation.

All incidents that result in a suspension or barring from programs, facilities and properties will be followed up in writing by both the Recreation and Culture and Parks and Open Space departments, outlining the details of the suspension.

The final decision related to the details of the suspension or barring will be made by the director of Recreation and Culture and/or director of Parks and Open Spaces or their designate. All correspondence related to discipline will be written under the signature of the director of Recreation and Culture and /or Parks and Open Space or their designate.

Appropriate staff in facility sections and or geographic areas will be notified of individuals who are barred or individuals who received a letter of trespass from Town properties and facilities. Appropriate organizations may be notified of the situation where appropriate.

Incidents may be reported to the Halton Regional Police Service, and charges may follow.

In addition to any other measures taken, where vandalism or theft has been perpetrated, the individual(s) responsible will be required to reimburse the Town for all costs associated with any repairs as well as any lost revenues or where appropriate be asked to repair the damage.

#### 4.4 SAFETY CONSCIOUSNESS

Accidents are preventable. Most workers who suffer injuries were either unaware that a hazard existed or failed to take sufficient precautions to eliminate the hazard. The safe worker is aware of the hazards inherent in his or her job and job site and works in such a way as to minimize the risk of injury to themselves and their participants.

Two important prerequisites to safety consciousness are a healthy rested body and a clear rested mind. No worker can remain alert to the many hidden hazards in the workplace if drugs or alcohol have dulled the senses or the mind and body have not had sufficient rest.

Safety consciousness thrives best in a neat and tidy workplace. Work in a neat and tidy manner. Clean up your work area after performing a job and at the end of every workday. Good housekeeping is a vital part of an effective accident prevention program.

Before starting any job, you should go through a mental checklist of safety precautions for yourself and your program location.

1. Am I wearing all necessary safety equipment (e.g. safety boots, safety glasses, safety vest, hard hat, gloves, harness, respirator etc.)?
2. Is my work area neat and tidy?
3. What are the hazards involved in performing this particular job?
4. Where is the nearest exit or fire escape?
5. Where is the nearest fire extinguisher or fire hose?
6. When it comes to accident prevention, the most valuable advice is **think before doing!** Before doing anything, ask yourself, "Is there a chance that someone might be injured if I do this?" If the answer is "Yes", stop what you're doing and consult with your supervisor.
7. Work in accordance with established procedures.
8. Don't take a chance that you might injure yourself another worker, or a participant.
9. Be smart and work safely.

**"Remember - safety first in Oakville"**

## **4.5 SAFETY RULES AND REGULATIONS**

In order to ensure safe working conditions and safe work practices, a list of Safety Rules and Regulations has been drawn up for all Town employees. These cannot cover every conceivable situation; therefore, the Town reserves the right to add to or otherwise amend them at any time.

#### **4.10 W.H.M.I.S. – WORKPLACE HAZARDOUS MATERIALS INFORMATION SYSTEM**

##### **MEANING**

W - Workplace  
H - Hazardous  
M - Materials  
I - Information  
S - System

##### **WHAT IS W.H.M.I.S.?**

W.H.M.I.S. is a Canada-wide system designed to give workers information about hazardous materials used in the workplace. Under W.H.M.I.S. there are three ways in which information on hazardous materials is provided to workers:

1. Labeling of hazardous materials.
2. Material Safety Data Sheets (MSDS) to supplement the label with detailed precautionary information.
3. Worker workplace training programs.

The supplier of the hazardous material provides the labels and data sheets to the employer. The employer is responsible for giving this information to the workers and providing the training.

##### **WHY WAS W.H.M.I.S. DEVELOPED?**

Prior to the introduction of W.H.M.I.S. information on hazardous materials in the workplace was often incomplete, inconsistent or not available at all. This meant that employers and workers were often unaware of the hazards of a material in the workplace and of the safe handling precautions.

## **HOW IS W.H.M.I.S. PUT INTO EFFECT?**

W.H.M.I.S. was put into effect by a combination of federal and provincial laws. It became effective across Canada on October 31, 1988. W.H.M.I.S. applies to all industries and workplaces covered by the Occupational Health and Safety Act.

## **RESPONSIBILITIES UNDER W.H.M.I.S. LEGISLATION**

### **Responsibilities of the suppliers**

- Must properly label hazardous products
- Must supply current data sheets (MSDS) for each hazardous product

### **Responsibilities of the employers**

- Must use properly labeled products
- Must make data sheets (MSDS) available to workers
- Must ensure all workers receive training on how to use this information

### **Responsibilities of the workers**

- Must attend W.H.M.I.S. training sessions
- Must apply knowledge gained to protect themselves and others when working near or with hazardous materials

A Smog Watch is issued by the ministry when there is a 50% chance that elevated smog levels are forecast to occur within the next three days.

If a humidex advisory is issued, the Halton Health Department will issue a Heat Alert. Smog can often accompany extreme heat.

Staff will be provided with ways and means to deal with these extreme conditions for their personal safety as well as being provided with ways and means to adjust program and service delivery to keep participants safe. These sessions will be delivered during job-specific training times and in standard operating procedures manuals

## **SEVERE LIGHTNING STORMS**

During a severe lightning storm, if you are outside, seek shelter in a building or depressed area such as a ditch. If you're caught in the open, crouch down with your feet close together and your head down (the "leapfrog" position). Do not lie flat – by minimizing your contact with the ground, you reduce the risk of being electrocuted by a ground charge.

Keep away from telephone and power lines, fences, trees and hilltops. **Never seek shelter under a**

**tree.** If you are in a vehicle, stay there. Don't stop near trees or power lines that could fall. This term can also be used to describe needles, syringes, blades, lancets, clinical glass (glass possibly contaminated with blood, body fluids or chemicals) and any other clinical items that could cause a cut, puncture or abrasion.

#### **UNIVERSAL PRECAUTIONS**

This is a term used to describe the necessary precautions required to eliminate or reduce the chances of being exposed to communicable diseases.

If a sharp is discovered, immediately call your supervisor or delegate, who in turn will be responsible for its pick up and disposal. Specific needle disposal procedures will be reviewed in employee training sessions.
