Executive Summary

B.I.G. Consulting Inc. (BIG) was retained by Mr. Clarence Zichen Qian on behalf of Oakville Argus Cross LP (Client), to complete a Phase One Environmental Site Assessment (ESA) of 217, 227 Cross Avenue and 571 Argus Road (Site). The objective of the investigation was to support the filing of a Record of Site Condition (RSC) in accordance with Ontario Regulation 153/04 (O.Reg.153/04), as amended. It is BIG's understanding that the Site will be redeveloped for residential purposes in the future, which would require and RSC.

A Phase One ESA is a systematic qualitative process to assess the environmental condition of a site based on its historical and current uses. This Phase One ESA was conducted in accordance with O.Reg.153/04 and in accordance with generally accepted professional practices.

The Site is located south of the Queen Elizabeth Way, north of Cross Avenue and east of Argus Road Oakville, Ontario as shown on Figure 1. The Site measures approximately 8,779 m² in size. The Site is currently occupied by two (2) commercial buildings (217 and 227 Cross) and one (1) vacant and undeveloped portion (571 Argus). The remainder of the Site is covered with an associated asphalt car park and landscaped area.

Please note that general environmental management and housekeeping practices were reviewed as part of this assessment insofar as they could impact the environmental condition of the Site. However, a detailed review of regulatory compliance issues was beyond the scope of the investigation. This Phase One ESA does not constitute an audit of environmental management practices.

A total of thirty-one (31) PCAs were identified within the Phase One Study Area. All of the PCAs identified were either located at a significant distance, downgradient or trans-gradient of the Site, therefore, it is the Qualified Person's conclusion that there are four (4) Areas of Potential Environmental Concern (APECs).

Area of Potential Environmental Concern (APEC) ¹	Location of APEC on Phase One Property	Potentially Contaminating Activity (PCA) ²	Location of PCA (On-Site or Off-Site) ²	Potential Contaminants of Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC 1: De-icing salt usage	Exterior of Site buildings	PCA "Other" – Usage of De-icing Salts	On-Site	Electrical Conductivity, SAR, Sodium and Chloride	Soil and Groundwater
APEC 2: Unknown fill materials	Exterior of Site buildings	PCA#30 – Importation of Fill Material of Unknown Quality	On-Site	PAHs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Soil and Groundwater
APEC 3: Former sheet metal shop	Western portion	Former Metal Fabrication (PCA#34 metal fabrication)	Off-Site	VOCs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Groundwater
APEC 4: Autobody shop	Western portion	PCA#10 commercial auto body shops	Off-Site	VOCs, PHCs, BTEX	Groundwater

1. Area of Potential Environmental Concern (APEC) means the area on, in or under a Phase One Study Area where one or more contaminants are potentially present, as determined through the Phase One ESA, including through:
 - a) identification of past or current uses on, in or under the phase one property, and

b) identification of potentially contaminating activities.

2. *Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a Phase One Study Area.*

PAHs - polycyclic aromatic hydrocarbons, PHCs - petroleum hydrocarbons, BTEX - benzene, toluene, ethylbenzene, xylenes, VOCs - volatile organic compounds, PCBs - polychlorinated biphenyls, SAR – sodium adsorption ratio, As – arsenic, Sb – antimony, Se – selenium, Cr(VI) – chromium VI and Hg – mercury.

Based on the findings and conclusions of this Phase One ESA, a Phase Two ESA is required to assess the soil and groundwater conditions at the Site.

This executive summary is a brief synopsis of the report and should not be read in lieu of reading the report in its entirety.

1. Introduction

B.I.G. Consulting Inc. (BIG) was retained by Mr. Clarence Zichen Qian, P.Eng on behalf of Oakville Argus Cross LP (Client), to complete a Phase One Environmental Site Assessment (ESA) on 217, 227 Cross Avenue and 571 Argus Road, Oakville, Ontario (Site), as shown on Figure 1.

A Phase One ESA is a systematic qualitative process to assess the environmental condition of a site based on its historical and current uses. This Phase One ESA was conducted in accordance with O.Reg.153/04, as amended, and in accordance with generally accepted professional practices. Subject to this standard of care, BIG makes no express or implied warranties regarding its services and no third-party beneficiaries are intended.

1.1 Site Information

The Site is located south of the Queen Elizabeth Way, north of Cross Avenue and east of Argus Road Oakville, Ontario, as shown on Figure 1. The Site measures approximately 8,779 m² in size and is currently occupied by two (2) commercial buildings (Site buildings) at 217 and 227 Cross Avenue and one (1) vacant and undeveloped area at 571 Argus Road. The Site buildings have a combined footprint of approximately 870 m² and occupy approximately 10 % of the Site. The remainder of the Site is covered with an asphalt and landscaped areas.

The Site is bound by commercial properties to the northeast and northwest, Argus Road to the southwest and Cross Ave to the southeast. A Site Plan is provided as Figure 2.

The legal description of the Site, Property Identification Numbers (PINs) and additional Site information are summarized in the table below. The legal survey plans are included in Appendix B.

Table 1-1: Site Information

Site Details	
Municipal Addresses	217, 227 Cross Avenue and 571 Argus Road, Oakville, Ontario
Current Owner	Oakville Argus Cross LP
Owner Address	1-90 Wingold Avenue, Toronto, Ontario, M6B 1P5
Owner Contact Person	Clarence Zichen Qian
Legal Description	217 Cross Avenue - Part Lot 13, 14, Concession 3 Trafalgar, South of Dundas Street, as in 765240; Oakville/Trafalgar. Subject to Easement H816821 Over Part 1, 20R13210 227 Cross Avenue - Part Lot 13, Concession 3 Trafalgar, South of Dundas Street, Part 4, 5, 20R3864, Subject to 487336, Subject to 487707; "Amended July 28'99 J. Menard". Subject to easement H816820 Over Parts 2 and 3, 20R13210.; Town of Oakville. 571 Argus Road - Part Lots 13 & 14, Concession 3 Trafalgar South of Dundas Street, as in H857135; Town of Oakville
Property Identification Numbers (PINs)	217 Cross Avenue - 24816-0044 (LT) 227 Cross Avenue - 24816-0043 (LT) 571 Argus Road - 24816-0114 (LT)
Property Size	8,779 m ²
Approximate Universal Transverse Mercator (UTM) coordinates	Zone: 17 Easting: 606480 Northing: 4812428 (1m, NAD83, QGIS)

2. Scope of Investigation

The scope of work for the Phase One ESA consisted of the following activities:

- a) Reviewing the historical occupancy of the Site through the use of available archived and relevant municipal and business directories, Fire Insurance Plans (FIPs), topographical maps, and aerial photographs;
- b) Contacting municipal and provincial agencies to determine the existence of records of environmental regulatory non-compliance, if any, and reviewing such records where available;
- c) Obtaining an EcoLog Environmental Risk Information Services Ltd. (ERIS) report for the Site and surrounding properties within a 250 metres (m) radius of the Site;
- d) Reviewing available geological maps, well records and utility maps for the vicinity of the Site;
- e) Obtaining and reviewing a chain of title and assessment rolls for the Site;
- f) Reviewing available reports previously completed at the Site;
- g) Conducting interviews with designated Site representative(s) as a resource for current and historical Site information, as well as to provide BIG staff with unrestricted access to all areas of the Site and Site buildings as required by O.Reg. 153/04, as amended;
- h) Conducting a Site reconnaissance in order to identify any land use practices that may have impacted the environmental condition of the Site;
- i) Conducting a reconnaissance of the surrounding properties from the Site and publicly accessible areas in order to identify any land use practices that may have impacted the environmental condition of the Site; and,
- j) Preparing a report to document the findings.

The following sections summarize the information gathered by BIG during the Phase One ESA and identifies Potentially Contaminating Activities (PCAs) on the Site and in the Phase One Study Area, and Areas of Potential Environmental Concern (APECs) associated with the Site. APECs and PCAs are defined in O. Reg 153/04, as amended.

In completing the scope of work, BIG did not conduct any intrusive investigations, including sampling, analyses or monitoring.

BIG personnel who conducted assessment work for this project included Ms. Rebecca, M.Env.Sc and Mr. Darko Strajin, P.Eng. An outline of their qualifications is provided in Appendix C.

3. Records Review

3.1 General

3.1.1 Phase One Study Area Determination

The Site is located south of the Queen Elizabeth Way, north of Cross Avenue and east of Argus Road Oakville, Ontario. The Phase One Study Area consists of properties within a distance of 250 m from the Site boundaries. The Phase One Study Area is bound by:

- a) Commercial properties and Argus Road to the north;
- b) Argus Road and Commercial properties and to the west;
- c) Commercial properties and Trafalgar Road to the east; and,
- d) Cross Avenue and Oakville GO Transit Station and railway line to the south.

The surrounding land uses within the Phase One Study Area are predominantly commercial. All properties wholly or partly within 250 m from the Site boundaries as presented in Figure 2 were included in the Phase One Study Area.

3.1.2 First Developed Use Determination

Based on the reviewed records; 227 Cross Avenue was vacant and undeveloped prior to the 1930s when it was first developed for residential use, 217 Cross Avenue was vacant and undeveloped prior to the 1980s when it was first developed for commercial use and 571 Argus remains vacant and undeveloped at the time of inspection.

A more detailed discussion of the Site history based on available documentation is provided in the following sections of the report.

3.1.3 Fire Insurance Plans

BIG contracted Opta Information Intelligence to perform a search for FIPs, Property Underwriters Reports and Property Underwriters Plans within the Phase One Study Area. Based on the search, FIPs dated 1932, 1967, and two (2) Site plan reports from 1976 and 1984 from Opta covered the Site and the Phase One Study Area. The FIPs obtained from Opta are included in Appendix H.

The following table summarizes the features of the Phase One Study Area as indicated on the reviewed FIPs. Building details were limited on the FIPs as indicated below.

1932	
Site	a) The Site does not appear on the fire insurance plan.
South	<ol style="list-style-type: none"> a) Canadian National Railway tracks were located approximately 180 m south. b) Hillmer's Coal Yard was located at 512 Dundas North, currently 485 Trafalgar Road approximately 220 m southeast. One UST was located south of the building. c) Gasoline service station was located at 2 Dundas North approximately 215 m south. One (1) UST was located west of the building. d) Wood and Coal Yard located at 590 and 151 Dundas North approximately 230 m south. e) Oakville Tire and Rubber Co located at 541 Dundas North approximately 250 m south.
1967	
Site	a) The Site was occupied by one steel framed glass building (greenhouse) with an attached garage.
North	a) The property located at 587 Argus Road was a printing shop approximately 100 m to the north.

East	<p>a) The property located at 562 Trafalgar Road was an Auto Service station with an UST tank approximately 125 m east.</p> <p>b) Beaver Lumber Co. Ltd. at 546 Cross Avenue located approximately 80 m east.</p> <p>c) British Paints (Canada) Ltd. located at 547 Trafalgar Road approximately 160 m east.</p>
South	<p>a) The property located at 218 Cross Avenue approximately 90 m to the south was a diaper service. There was one (1) fuel oil underground storage tank and one (1) underground gasoline service tank located on the property.</p> <p>b) Main Lumber Ltd. located at 485 Trafalgar Road approximately 220 m southeast had operations of sawing, storage and oil drums and tire storage. One (1) UST located south of the building 485C.</p> <p>c) Hillmers Fuel & Ice Ltd. located at 489 Trafalgar Road located approximately 215 m south. One (1) UST was located south of office building and one UST oil tank located east of 489B.</p>
West	<p>a) The property located at 185 Cross Avenue was occupied by James R. Kendall Leather Co. LTD., approximately 65 m southwest had operations of a tannery.</p> <p>b) Dominion was located at 125 Cross Avenue approximately 190 m west. Two (2) fuel oil tanks were located southeast of the building.</p> <p>c) The properties located at 568, 570 and 572 Argus Road approximately 20 m west had operations of sheet metal, workshop, and printing.</p>
1976	
East	<p>a) A single-storey commercial building in operation as a restaurant existed east adjacent to the Site.</p>
1984	
Site	<p>a) The Site 227 Cross Avenue was occupied by Harvey's Restaurant a single storey building.</p> <p>b) The Site 217 Cross Avenue was occupied by Mother's Pizza Parlour a single storey building.</p>
East	<p>a) 546 Trafalgar Road was occupied by a Lumber yard with a single-storey building.</p>

Based on the information gathered from the review of the FIPs, the following PCAs were identified:

- a. The property located at 562 Trafalgar Road, approximately 125 m to the east, was occupied by a former auto gasoline service station and is associated with PCA#10 – Commercial Autobody Shops and PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- b. Hillmer's Coal Yard was located at 512 Dundas North currently 485 Trafalgar Road approximately 220 m southeast. One (1) UST was located south of the building. The fuel oil underground storage tank and underground gasoline service tank is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- c. A gasoline service station was located at 2 Dundas North approximately 215 m south. One (1) UST was located west of the building. The fuel oil underground storage tank and underground gasoline service tank is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- d. The property located at 218 Cross Avenue was occupied by a diaper service 90 m to the south. The property had one (1) fuel oil underground storage tank and one (1) underground gasoline service tank. The fuel oil underground storage tank and underground gasoline service tank is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- e. The property located at 185 Cross Avenue, approximately 65 m southwest, occupied by James R. Kendall Leather Co. Ltd. had operations of tanning and is associated with PCA#53 -Tanning.
- f. Oakville Tire and Rubber Co located at 541 Dundas North approximately 250 m south and is associated with PCA#10 – Commercial Autobody Shops.
- g. The property located at 587 Argus Road was a printing shop approximately 100 m to the north. The operations are limited to retail printing and are not associated with any PCAs.

- h. British Paints (Canada) Ltd. located at 547 Trafalgar Road approximately 160 m east. The operations were associated with PCA#39 -- Paints Manufacturing, Processing, and Bulk Storage.
- i. Main Lumber Ltd. located at 485 Trafalgar Road approximately 220 m southeast had operations of sawing, storage and oil drums and tire storage. One (1) UST located south of the building 485C. The operations were associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- j. Hillmers Fuel & Ice Ltd. located at 489 Trafalgar Road located approximately 215 m south. One (1) UST was located south of office building and one (1) UST oil tank located east of 489B. The operations were associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- k. Dominion located at 125 Cross Avenue approximately 190 m west. Two (2) fuel oil tanks were located southeast of the building. The operations were associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- l. The properties located at 568, 570 and 572 Argus Road approximately 20 m west had operations of sheet metal, workshop, printing, and sheet metal. The operations were associated with PCA#34 metal fabrication.

3.2 Chain of Title

A chain of title was completed for the Site by Stewart Davey, an independent title searcher. The chronological Chain of Title provided to BIG is provided in Appendix D, summarized in Table II, and indicated the following entities associated with the ownership as part of the Site:

Year	Name of Owner
227 Cross Avenue – 24816-0043 (LT)	
Prior to 1831	The Crown
1831 to 1845	William Chisholm
1845 to 1854	George K. Chisholm
1854 to 1866	Robert K. Chisholm
1866 to 1911	John Cross
1911 to 1919	Charles Henry Cross
1919 to 1922	James Igatt
1922 to 1925	Arthur C. Daubney
1925 to 1929	Percy Casburn
1929 to 1971	Martha Elizabeth Daubney Frederick Colinwood Daubney
1971 to 1976	Mildred Viola Daubney James Frederick Daubney
1976 to 1978	Oakland Mercury Sales Limited
1978 to 1982	Roshorn Limited
1979	Mother's Pizza Parlours (Oakville) Limited
1982 to 1998	Anthony Joseph Allum
1998 to 2001	1271673 Ontario Ltd.
1999	The Corporation of the Town of Oakville
2001 to 2013	1467088 Ontario Inc.
2002	McDonald's Restaurants of Canada Limited
2013 to Present	Octopus Investment Corp.

Year	Name of Owner
217 Cross Avenue – 24816-0044 (LT)	
Prior to 1831	The Crown
Lot 14 Chain #2	
1831 to 1845	William Chisholm
1845 to 1854	George K. Chisholm
1854 to 1866	Robert K. Chisholm
1866 to 1870	John Cross
1870 to 1883	William Wardell
1883 to 1911	John Cross
Lot 13 Chain #1	
1831 to 1845	William Chisholm
1845 to 1854	George K. Chisholm
1854 to 1866	Robert K. Chisholm
1866 to 1911	John Cross
Merge of Chains #1 and #2	
1911 to 1970	Charles Henry Cross
1970 to 1975	Roland Allan Cornwall
1975 to 1982	D.L. Fowles Developments Ltd.
1977	Lease - Mother's Pizza Parlours (Oakville) Limited
1982	418040 Ontario Ltd./Rosburn Limited
1982 to 1991	Douglas William Beer
1999	The Corporation of the Town of Oakville
1991 to 2004	135142 Canada Limited Oak-Lane Park Investments Inc.
2004 to 2020	1137528 Ontario Limited
2020	2793828 Ontario Inc.
571 Argus Road – 24816-0114 (LT)	
Chain #2 Lot 14	
Prior to Crown	1831
1831 to 1845	William Chisholm
1845 to 1854	George K. Chisholm
1854 to 1866	Robert K. Chisholm
1866 to 1870	John Cross
1870 to 1883	William Wardell
1883 to 1911	John Cross
Chain #1 Lot 13	
Prior to Crown	1831
1831 to 1845	William Chisholm
1845 to 1854	George K.Chisholm
1854 to 1866	Robert K. Chisholm
1866 to 1911	John Cross
Merge of Chains #1 and #2	

Year	Name of Owner
1911 to 1921	Charles Henry Cross
1921	Walter Ward Price
1921 to 1924	Walter G. Thomas
1921 to 1924	Robert John Gaskin Walter Ward Price Ernest S. Glassio Oliver Hazzelwood
1924 to 1926	Oliver Hazzelwood
1926 to 1929	Margaret McGee
1929 to 1930	James Mullen
1930 to 1933	Margaret McGee Thomas Glacier Mary Anne Glacier
1933	Oliver Hazzelwood
1933 to 1937	Estate of Oliver Hazzlewood
1937	The Municipal Corporation of the Town of Oakville
1937 to 1952	Jacan Boyko
1952 to 1953	Ann Boyko Stella Moscow Sophia Niukalyk
1954 to 1959	Oakville Motel Company Limited Harold Robert Sanders
1959 to 1960	Jacob Boyko Michael Mutzak John Tims
1960 to 1969	Julia Dniprenko Anna Boyko
1969 to 1971	Patrick J. Curran
1971 to 1987	Trafalgar Medical Building Limited
1987 to 1989	The Oakville School of Dancing Ltd.
1989 to 1993	Pentacon Inc.
1993 to 1997	Regional Medical Properties (Argus) Inc
1997 to 1998	1082955 Ontario Limited
1998 to 2006	Oakville (HI) Purchaseco Inc.
2006 to 2020	1691498

Based on the review of the chain of title, no PCAs were identified.

3.3 Environmental Reports

The following documents were available for review, BIG reviewed and used as a source of background information during the preparation of this report:

- a) Terrapex (2019a) Phase I and Phase II Environmental Site Assessment, 217 Cross Avenue and 571 Argus Road, Oakville, Ontario. Terrapex Environmental Ltd., October 11, 2019.
- b) Terrapex (2019b) Phase I Environmental Site Assessment Update, 217 Cross Avenue and 571 Argus Road, Oakville, Ontario. Terrapex Environmental Ltd., November 4, 2019.

- c) B.I.G. (2019) Preliminary Geotechnical Investigation, 217 Cross Avenue and 571 Argus Road, Oakville, Ontario. B.I.G. Consulting Inc., December 3, 2019.

Terrapex (2019a) Phase I and II ESA	
Objective	The objectives of the project were to identify actual and potential sources of contamination at the Site associated with current and/or historical activities at the Site and on neighbouring properties; and, to investigate the potential for soil and groundwater impacts at the Site related to the historical and current use of the Site and adjacent properties. Note, this report is focused on a portion of the Site (217 Cross Ave and 571 Argus Road), not the entire Site.
Potential Environmental Concerns Identified	<ol style="list-style-type: none"> 1. Possible presence of Polychlorinated biphenyls (PCBs) in surface soils in the vicinity of a transformer located on-site; 2. Possible fill of unknown quality used for grading purposes on-site 3. Possible soil and groundwater contaminant migration from off-site sources.
Field Program	<ol style="list-style-type: none"> 1. Advancement of five (5) boreholes (MW101, MW102, BH103, MW104, MW105, and BH106) up to a maximum depth of 3.05 m below ground surface (bgs). 2. Installation of four (4) monitoring wells (MW101, MW102, MW104, and MW105). 3. Soil samples submitted for the analyses of petroleum hydrocarbons (PHCs), volatile organic compounds (VOCs), polycyclic aromatic hydrocarbons (PAHs), polychlorinated biphenyls (PCBs), metals and inorganics. 4. Groundwater samples submitted for the analyses of PHCs, VOCs, metals and inorganics.
Site Condition Standards	MECP (2011) Table 2 Full Depth Generic Site Condition Standards in a Non-Potable Ground Water Condition for industrial/commercial/community (ICC) property use with coarse textured soil.
Groundwater Observations	Measured at a depth of between 2.29 – 2.45 mbgl (September 2018).
Soil Conditions	Below SCS, with exception of Sodium adsorption ratio (SAR) exceeded the Table 2 SCS at MW105-1a.
Groundwater Conditions	Below SCS except for Chloride at MW105 and Sodium at MW104 and MW105 (Table 2 SCS).

Terrapex (2019b) Phase I Environmental Site Assessment Update	
Objective	To verify that no significant changes occurred within the Site or surrounding areas since the Phase I and II were conducted.
Potential environmental impacts identified	A de-greasing tank within the kitchen area of the restaurant, which is used to clean large stainless steel cooking utensils and equipment parts (i.e. rotisserie spits, vent hood). The degreasing tank was installed within the last year and is maintained and cleaned by a third party, every two weeks. No signs of leakage or staining were observed, and the tank appeared to be in excellent conditions
Conclusions	The Phase I ESA update work program did not identify any evidence to suggest that, since the report date of the previous Phase I and II ESAs, there is any new or materially changed potential environmental concerns at the Site.

BIG (2019) Geotechnical Investigation	
Objective	Investigate subsurface conditions for the Site and give geotechnical recommendations and identify potential geotechnical hazards.
Field Program	<ol style="list-style-type: none"> 1. Advancement of six (6) boreholes (BH1 to BH6) the depths ranged between 2.3 m to 17.7 m bgs. 2. BH3, BH4 and BH6 had piezometers installed for long term groundwater level observations.
Site Stratigraphy	<ul style="list-style-type: none"> • The general stratigraphy at the site consists of topsoil or asphalt, granular fill, fill, silty to clayey silt, glacial till deposits overlying shale bedrock conditions. • Shale was encountered at depths ranging between 1.8 to 3.1 m bgs.
Groundwater Observations	Measured at a depth of between 1.7 m to 3.6 m bgs (November 29, 2019)

3.4 Environmental Source Information

3.4.1. Federal and Provincial Database Search

A search of provincial, federal and private environmental databases for records pertaining to the Site and properties within the Phase One Study Area was conducted by ERIS. BIG has confirmed neither the completeness nor the accuracy of the records that were provided. A copy of the ERIS report is provided in Appendix E. A summary of the significant findings is provided below.

3.4.1.1 Waste Disposal Sites

The ERIS search included the following waste disposal sites databases:

- a) Anderson's Waste Disposal Sites (1860s to present)
- b) Waste Disposal Sites – MOE CA Inventory (October 2011 to August 2019)
- c) Waste Disposal Sites MOE 1991 Historical Approval Inventory (Up to October 1990)

No records were identified for the Site or within the Phase One Study Area is summarized below.

3.4.1.2 Boreholes (1875 to July 2018)

No records were identified for the Site. A total of five (5) borehole records were identified for the properties surrounding the Phase One Study Area which were advanced for geotechnical or geological investigations from 1958 to 1966. The general stratigraphy of the Phase One Study Area as outlined in the borehole records consist of topsoil, underlain by brown sand, underlain by clay and brown shale.

3.4.1.3 Certificates of Approval (1985 to October 2011)

No records were identified for the Site. The following certificates of approval identified within the Phase One Study Area and are summarized below:

- a) The property located at Cross Avenue/Argus Road, approximately 40 m south, occupied by R.M. of Halton, had a certificate of approval for water in 1999. Based on the description of the record, no PCAs were identified.
- b) The property located at 564 Trafalgar Road, approximately 105 m east northeast, occupied by Taco Bell of Canada, had a certificate of approval for air in 1994. Based on the description of the record, no PCAs were identified.
- c) The property located at 562 Trafalgar Road, approximately 125 m east, occupied by Imperial Oil Limited, had a certificate of approval for sewage works in 2009. Based on the description of the record, no PCAs were identified.

- d) The property located at 196 South Service Road West, approximately 200 m northwest, occupied by Fieldfresh Farms Ltd., had a certificate of approval for air in 1996. Based on the description of the record, no PCAs were identified.
- e) The property located at 312 Davis Road, approximately 230 m northeast, occupied by Carstar Corporate Collision Centres Inc., had a certificate of approval for air in 2003. Based on the description of the record, no PCAs were identified.

3.4.1.4 Ontario Regulation 347 Waste Generator Summary (1986 to July 2019)

The Site was not identified in this database. The waste generators that were identified within the Phase One Study Area are summarized below:

- a) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by Med-Chem Laboratories Ltd., was a medical laboratories waste generator of pathological wastes (waste class 312) and residues 1989, 1990, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001. As the medical laboratories have disposal protocol, no PCAs were identified.
- b) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by CML HealthCare, was a waste generator of medical and diagnostic laboratories of pathological wastes (waste class 312) and residues 2009, 2010, 2011. As the medical laboratories have disposal protocol, no PCAs were identified.
- c) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by Argus Medical Centre, was an office of physicians of pathological wastes (waste class 312) and pharmaceuticals (waste class 261) and residues 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2020. As the physicians have disposal protocol, no PCAs were identified.
- d) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by LifeLabs LP, was a waste generator of medical and diagnostic laboratories of pathological wastes (waste class 312) and Pharmaceuticals (waste class 261) and residues at 2012, 2013, 2014, 2015, 2016, 2018, 2020. As the medical laboratories have disposal protocol, no PCAs were identified.
- e) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by Adamson Properties Inc., had a waste class description of oil skimmings, sludge and residues in 2014. As the physicians have disposal protocol, no PCAs were identified.
- f) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by MCTU Diagnostics Limited, was a radiological lab of photo processing wastes (waste class 264) and residues 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001. Given the quantity of waste generated from photo processing is considered to be environmentally insignificant, no PCAs were identified.
- g) The property located at 581 Argus Road, approximately 15 m west of the site, occupied by Camista Holdings, was an office of health practitioners. As the health practitioners have disposal protocol, no PCAs were identified.
- h) The property located at 587 Argus Road, approximately 100 m north of the site, occupied by Dr. Sam Jomehri, was an office of dentists of oil pathological wastes and photo processing wastes residues in 2016, 2018, 2020. As dentist has disposal protocol, no PCAs were identified.
- i) The property located at 603 Argus Road, approximately 55 m north west of the site, occupied by Inside Health Inc. for pathological wastes in 2018. As health practitioner has disposal protocol, no PCAs were identified.
- j) The property located at 595 Argus Road, approximately 55 m northwest of the site, occupied by E. Mymryk Investments Inc., was a waste generator of photo processing wastes and residues in 1986, 1987, 1988, 1989, 1990, 1992, 1993, 1994, 1995, 1996, 1997, 1998. Given the quantity of

waste generated from photo processing is considered to be environmentally insignificant, no PCAs were identified.

- k) The Property located at 586 Argus Road, approximately 60 m west of the site occupied by Dr. Gregory A. Shaw, was a waste generator of photo processing wastes and residues in 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004. Given the quantity of waste generated from photo processing is considered to be environmentally insignificant, no PCAs were identified.
- l) The property located at 586 Argus Road, approximately 60 m west of the site, occupied by 586 Argus Clinic office of physicians, was a waste generator of pathological wastes and pharmaceuticals and residues in 2014, 2015, 2016, 2018, 2020. As health practitioner has disposal protocol, no PCAs were identified.
- m) The property located at 185 Cross Avenue, approximately 65 m southwest, occupied by 915643 Ontario Inc. for lessors of non-residential buildings in 2012. As property has disposal protocol, no PCAs were identified.
- n) The property located at 214 Cross Avenue, approximately 95 m southeast of the site, occupied by Priestly demolition Inc, was a waste generator of PCB's and residues in 2007, 2008. The property was listed as having operation of site preparation contractors. As the contractor has disposal protocol, no PCAs were identified.
- o) The property located at 234 South Service Road, approximately 135 m northwest, occupied by Cormack Animal Clinic Limited and Animal Hospital of Oakville was a waste generator of pathological wastes and pharmaceuticals between 1997 and 2020. As health practitioners have disposal protocol, no PCAs were identified.
- p) The property located at 265 Cross Avenue, approximately 140 m southwest, occupied by Hepworth and Damas Endodontics was a waste generator of pathological wastes and pharmaceutical wastes between 2014 and 2020. As health practitioners have disposal protocol, no PCAs were identified.
- q) The property located at 547 Trafalgar Road, approximately 160 m east, occupied by Terrapex Environmental Ltd. and Gears Bike Shop, was a waste generator of light fuels, oil skimmings and sludges between 2010 and 2020. The property was listed as having operation of sporting goods stores. As the retail store has disposal protocol, no PCAs were identified.
- r) The property located at 232 South Service Road 165 m north northwest, occupied by Regional Municipality of Halton and Regional Municipality of Halton Health Department, was a waste generator of pathological and pharmaceuticals wastes between 2015 and 2020. As the Region has disposal protocol, no PCAs were identified.
- s) The property located at 200 Cross Avenue, approximately 175 m southeast, occupied by Grascan on behalf of Metrolinx was a waste generator of crankcase oils and lubricants in 2020. As the contractor has disposal protocol, no PCAs were identified.
- t) The property located at 148 Cross Avenue, approximately 205 m southwest, occupied by Wotherspoon Foundry Ltd., was waste generator of steel making residues, acid waste, paint/pigment/coating residues, petroleum distillates and waste oils and lubricants between 1986 and 2001. The activities are associated with PCA#32 – Iron and Steel Manufacturing and Processing.
- u) The property located at 503 Lyonds Lane, approximately 220 southeast, occupied by GS Wark Limited, was a waste generator of other specified inorganics between 2007 and 2008. The property was listed as having operation of industrial building and structure construction. As the contractor has disposal protocol, no PCAs were identified.
- v) The property located at 485 Trafalgar Road, approximately 220 m southeast, occupied by Main Lumber Co and West Marine, was a waste generator of waste oils and lubricants,

paint/pigment/coating residues, aromatic solvents, organic laboratory chemicals, polymeric resins, amines and compressed gases between 1992 and 2017. The property was listed as having operations of forest product warehouse and automotive parts and accessories stores. Based on the description of operation, no PCAs were identified.

- w) The property located at 462 Trafalgar Road, approximately 230 m southeast, occupied by Kemsan Inc, was a waste generator of non-halogenated pesticides, non-halogenated pesticides between 1986 to 1998. The property was listed as a vendor. Based on the description of operation, no PCAs were identified.
- x) The property located at 312 Davis Road, approximately 230 m northeast, occupied by 1737126 Ontario Ltd., was a waste generator of light fuels in 2019. Based on the inadequate information provided by ERIS, no PCAs were identified.
- y) The property located at 457 Reynolds Street, approximately 240 m east, occupied by Canadian General-Tower Ltd. and Starline Productions Rentals Inc., was a waste generator of paint/pigment/coating residues, aliphatic solvents, petroleum distillates, oil skimmings and sludges, waste oils and lubricants, heavy fuels, PCB's and organic laboratory chemicals between 1986 and 2009. The property is associated with PCA#11 – Commercial Trucking and Container Terminals and PCA#43 – Plastics (including Fibreglass) Manufacturing, Processing and Bulk Storage.

3.4.1.5 Dry Cleaning Facilities (January 2004 to December 2017)

No records were identified for the Site or the properties within the Phase One Study Area.

3.4.1.6 National Pollutant Release Inventory (1993 to May 2017)

No records were identified for the Site or the properties within the Phase One Study Area.

3.4.1.7 TSSA Incidents (Up to February 2017) and TSSA Historic Incidents (2006 to June 2009)

The Site was not identified in this database or within the Phase One Study Area:

3.4.1.8 Pesticide Register (1988 to March 2019)

The Site was not identified in this database. The following records were identified for the properties within the Phase One Study Area:

- a) One (1) record for the property located at 546 Trafalgar Road, approximately 105 m northeast.
- b) One (1) record for the property located at 462 Trafalgar Road, approximately 230 m southeast.

These records indicated that the properties were either a vendor, limited vendor or retail vendor of pesticides and no manufacturing of pesticides was identified at 546 Trafalgar Road, no PCAs identified.

3.4.1.9 Fuel Storage Tanks

The ERIS search included a search of the following fuel storage tank databases:

- a) Fuel Storage Tank (Up to February 2017)
- b) Historic Fuel Storage Tank (Pre January 2010)
- c) List of TSSA Expired Facilities (Up to February 2017)
- d) Private and Retail Fuel Storage Tanks (1989 to 1996)
- e) Retail Fuel Storage Tanks (1999 to January 2019)
- f) Commercial Fuel Oil Tanks (Up to February 2017)
- g) TSSA Variances for Abandonment of Underground Storage Tanks (Up to February 2017)

h) Anderson's Storage Tanks (1915 to 1953)

The Site was not identified in these databases. The following records were identified for the properties within the Phase One Study Area:

- a) The property located at 562 Trafalgar Road, approximately 125 m east, occupied by Mac's Convenience Stores Inc, Geetanjali Adhyapak O/A gas station, Trafalgar Esso Self-Serve, 1285118 Ont. Inc. and Zulfi Esso had nine (9) fuel storage liquid fuel tanks and one (1) retail fuel storage tank. The property was listed as having operations of a gasoline station. The property is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- b) The property located at 462 Trafalgar Road, approximately 230 m southeast, occupied by Kemsan Inc had two (2) fuel storage liquid fuel tanks and one (1) private fuel storage tank. The property is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- c) The property located at 457 Reynolds Street, approximately 240 m east, had one (1) fuel storage liquid fuel tank and one (1) private fuel storage tank. The property is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tank.
- d) The property at 570 Trafalgar Road, approximately 75 m northeast, occupied by Oak-Land Lincoln Mercury Sales had one (1) record of a private storage tank. The property is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tank.
- e) The property located at 570 Trafalgar Road, approximately 75 m northeast, occupied by a Ford dealership has one (1) record including one (1) propane vehicle convenience centre. Based on the description of the record, no PCAs were identified.

3.4.1.10 Ontario Spills (1988 to February 2019)

The Site was not identified in this database. The following spills were identified for the properties within the Phase One Study Area:

- a) The property located at 570 Trafalgar Road, approximately 75 m northeast occupied by Trafalgar Road Oakland Mercury had a 5-litre hydraulic fluid spill for a truck at the dealership due to weld/seam failure in December 1989. Based on the description of the spill, no potential environmental impacts were identified.
- b) A spill of approximately 3 L of radiator fluid was spilled to the ground at 214 Cross Avenue approximately 95 m southeast. The radiator fluid was likely transported to the nearest storm sewer, no PCAs were identified.
- c) A spill of approximately 20 L of engine oil was spilled to the ground at Cross Avenue/Trafalgar Road approximately 110 m east. The engine oil was likely transported to the nearest storm sewer, no PCAs were identified.
- d) A hydrocarbon contamination was identified at corner of South Service Road and Trafalgar, approximately 110 m east. Based on the description of the incident, no PCAs were identified.
- e) A spill of approximately 350 L of surfactant spilled to the roadway at Trafalgar and Cross Street, approximately 110 m east. The surfactant was likely transported to the nearest storm sewer, no PCAs were identified.
- f) A spill of gasoline to the pavement at 562 Trafalgar Road, approximately 125 m east in 1989. The property had a spill of 3-4 L of gasoline to the payment in 1989 and a gasoline spill to the concrete pad in 1990. The property is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.

3.4.1.11 Scott's Manufacturing Directory (1992 to March 2011)

The Site was not identified in this database. The following manufacturers were identified for the properties within the Phase One Study Area:

- a) The property at 595 Argus Road, approximately 55 m northwest, occupied by Rubicon Publishing Inc. was listed as having operations of Book publishers in 1987. Based on the description of operations, no PCAs were identified.
- b) The property at 591 Argus Road, approximately 60 m northwest, occupied by Target Marketing Corp. was listed as having operations of office equipment, electrical appliances, television and radio sets, electronic parts and equipment, jewellery, watches, precious stones and precious metals and stationery and office supplies in 1979. Based on the description of operations, no PCAs were identified.
- c) The property at 586 Argus Road, approximately 60 m west, occupied by Dionex Canada Ltd., was listed as having operations of professional equipment and supplies in 1986. Based on the description of operations, no PCAs were identified.
- d) The property located at 165 Cross Avenue, approximately 140 m southwest, occupied by Instant Imprints Canada Inc., was listed as having commercial screen printing, other printing, textile product mills, sign manufacturing, lessors of non-financial intangible assets and commercial screen printing. The activities are associated with PCA#54 -- Textile Manufacturing and Processing.
- e) The property located at 226 South Service Road East, approximately 195 m northwest occupied by Rubicon Publishing Inc., was listed as a book publisher. Based on the description of operations, no PCAs were identified.
- f) The property located at 117 Cross Avenue, approximately 200 m southwest occupied by Colourchrome Imaging, was listed as printing and sign manufacturing in 1990. Based on the description of operations, no PCAs were identified.

3.4.1.12 Water Well Information System (Up to February 2019)

Two (2) records were identified at the Site. The well was installed in 2004 and 2018 for observation purposes to a maximum depth of 5.1 m bgs. Based on the well record, the general soil description of the Site consisted of silty sand, sand and shale bedrock. 19 records were identified within the Phase One Study Area. The wells were installed between 2007 to 2018 for monitoring, test hole, observation and dewatering purposes at depths ranging from 3.4 m to 6.1 m bgs. Based on the well records, the general soil stratigraphy in the vicinity of the Site consisted of fill, silty sand, sand and shale bedrock.

3.4.2. Municipal City Directories

A search for Oakville City Directories was completed by LGI Copy Service Canada in order to identify the occupancy history of the Site and properties within the Phase One Study Area for potential environmental concerns. Based on the review of the directories dated 1958, 1965, 1971, 1975, 1984, 1989, 1994 and 2000, summarized in Appendix F, the following significant findings were identified:

- a) The Site at 227 Cross Avenue first appeared in 1965 and was occupied by Daubey FC Florist. Between 1984 and 1994 the Site was occupied by Harvey's. The Site was occupied by Coffee Time in the year 2000. Based on the description of records, no PCAs were identified.
- b) The Site at 217 Cross Avenue first appeared in 1984 and was occupied by Mother's Pizza Parlour and Spaghetti House and Friendly Greek in 2000. Based on the description of records, no PCAs were identified.
- c) The property located at 214 Cross Avenue, approximately 95 m southeast, was occupied by Canadian Pacific Express Co/Canadian National Railway between 1965 and 1971. The property is associated with PCA#46 – Rail Yards, Tracks and Spurs.
- d) The property located at 547 Trafalgar Road, approximately 160 m east of Site, was occupied by British Paints (Canada) LTD and Queenston Twin Motors in 1965 to 1975. The property is associated with PCA#39 -- Paints Manufacturing, Processing, and Bulk Storage.

- e) The property located at 562 Trafalgar Road, approximately 125 m east of Site, was occupied by Flieger's Texaco Service Station and Roy Fleiger Ltd service station in 1965 to 1989. The property is associated with PCA#10 – Commercial Autobody Shops and PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- f) The property located at 572 Argus Road, approximately 20 m west of Site, was occupied by Oakville Sheet Metal Co LTD in 1971-1975. The property is associated with PCA#34 -- Metal Fabrication.
- g) The property located at 580 Argus Road, approximately 150 m west of the site, was occupied by Jet Auto Centre in 1989-1994 and Ace Automotive in 2000. The property is associated with PCA#10 – Commercial Autobody Shops.
- h) The property located at 218 Cross Avenue, approximately 90 m south, was occupied by Home Diaper Service in 1965. The property had one (1) fuel oil underground storage tank and one (1) underground gasoline service tank. The fuel oil underground storage tank and underground gasoline service tank is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- i) The property located at 185 Cross Avenue, approximately 65 m southwest was occupied by James R. Kendall Leather Co. LTD. in 1965-1975 had operations of tanning and is associated with PCA#53 Tanning.
- j) The property located at 125 Cross Avenue, approximately 190 m west, occupied by Kendall Jas R Leather CO LTD in 1965-1971, Firestone Tire and Rubber Co of Can Ltd 1971-1989, Woolco Auto Centre 1989-1994, and Cadet Cleaners in 1984-2000 had operations of dry cleaning and rubber processing. The property is associated with PCA#10 -- Commercial Autobody Shops and PCA#37 -- Operation of Dry Cleaning Equipment.
- k) The property located at 485 Trafalgar Road, approximately 220 m southeast occupied by Main Lumber Ltd. in 1971-2000 had operations of sawing, storage, and oil drums, and tire storage. The operations were associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.
- l) The property located at 152 Cross Avenue, approximately 240 m west occupied by Cadet Cleaners in 1984-1989. The Site is associated with PCA#37 -- Operation of Dry Cleaning Equipment.
- m) The property located at 142 Cross Avenue, approximately 245 m west occupied by Noel's Auto Service in 1984-2000 and Jager's Automotive LTD in 1994-2000. The Site is associated with PCA#10 -- Commercial Autobody Shops.
- n) The property located at 187 Cross Avenue, approximately 30 m southwest, occupied by Rodeo Dry Cleaners in 1994. The property is associated with PCA#37 -- Operation of Dry Cleaning Equipment.
- o) The property located at 233 Cross Avenue, approximately 30 m east, occupied by Top Hat Cleaners in 2000. The Site is associated with PCA#37 -- Operation of Dry Cleaning Equipment.
- p) The property located at 570 Argus Road, approximately 20 m west, occupied by Argus Automotive in 2000. The Site is associated with PCA#10 -- Commercial Autobody Shops.

The remaining properties within the Phase One Study Area did not appear to be associated with any PCAs as per Table 2, Schedule D of O.Reg.153/04, as amended.

3.4.3. Ontario Ministry of Environment, Conservation and Parks Records

3.4.3.1 Ministry of the Environment, Conservation and Parks (MECP)

The Ministry of Environment, Conservation and Parks (MECP) was contacted through the Freedom of Information and Protection of Privacy Act (FOI) for copies of any records they had pertaining to the Site on November 3, 2020.

A written response from some of the regulatory agencies such as the MECP typically requires several weeks to months. A written response from the MECP is pending at the time of this Phase One ESA. The request is included in Appendix G.

3.4.3.2 MECP Databases

The ERIS report summarized in the Federal and Provincial Database Search section of the report included a summary of MECP databases. The databases include the following: MECP Environmental Bill of Rights (EBR), Environmental Activity and Sector Registry (ESAR), Environmental Compliance Approval (ECA), MECP Brownfields Environmental Site Registry (BESR), MECP Hazardous Waste Information Network (HWIN) and MECP Waste Disposal Sites. The following record was identified:

- a) The property located at 312 Davis Road, approximately 230 m northeast was registered in the EBR database for discharge into the natural environment other than water in 2002. Based on the description of the registration, no PCAs were identified.
- b) The property located at 562 Trafalgar Road, approximately 125 m east was registered in the ECA database for industrial sewage works in 2009. Based on the description of the registration, no PCAs were identified.
- c) The property located at 312 Davis Road, approximately 230 m northeast was registered in the ECA database for air in 2003. Based on the description of the registration, no PCAs were identified.
- d) The property located at 547 Trafalgar Road, approximately 160 m east was registered in the ESAR database for automotive refinishing facility and dewatering in 2012 and 2020. The property is associated with PCA#10 – Commercial Autobody Shops.

3.4.4. Technical Standards and Safety Authority

A request was made to the TSSA by email on December 17, 2020 for information regarding fuel storage at the Site and the adjacent properties. A copy of the TSSA request is provided in Appendix G.

An email response from TSSA dated December 17, 2020 was received and is included in Appendix G. Based on the search results, no records were identified at the Site.

Based on the search results, the property located at 570 Trafalgar Road, approximately 75 m northeast had one (1) record of an active fuel service facility acting as a propane vehicle convenience centre. Based on the description of the record, no PCAs were identified.

Based on the search results, the property located at 562 Trafalgar Road, approximately 125 m east had two (2) active records of fuel service facilities acting as a gasoline station self-serve and cylinder exchange. 562 Trafalgar Road had four (4) active fuel service liquid fuel tanks and five (5) expired. The property is associated with PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks.

3.5 Physical Setting Sources

3.5.1 Aerial Photographs

Aerial photographs were obtained in order to review the development and land use history of the Site, as well as to the land in the immediate vicinity of the Site. Aerial photographs dated 1934, 1965, 1979 and 1988 were obtained from City of Toronto and aerial photographs dated 2002 and 2018 were obtained from Google Earth. The aerial photographs were collected based on availability from the archives at available intervals to best capture the changes at the Site. BIG notes that at the time of this Phase One ESA, the 1934 aerial photograph was the earliest available photograph for the Site and Phase One Study Area.

The development and land use history of the Site and adjacent properties as depicted on the reviewed aerial photography is summarized in Table 3-1. Copies of the aerial photographs are included in Appendix H.

Table 3-1: Aerial Photograph Observations

Aerial Photograph Year	Observations
1934	<ul style="list-style-type: none"> • One (1) residential building appears to be developed on the Site. • North of the Site appears undeveloped/vacant land. • The land directly to the east of the Site appears to contain two (2) residential buildings. • To the south of the Site appears to contain commercial and residential properties. • To the west of the Site appears to be undeveloped/vacant land with Sixteen Mile Creek .
1965	<ul style="list-style-type: none"> • The Site remains developed with one building. • The land north of the Site remains undeveloped/vacant. • Multiple commercial buildings appear to be developed to the east. • To the south the residential properties have become increasingly dense. • The land to the west has started to develop with commercial and residential properties.
1979	<ul style="list-style-type: none"> • The Site is developed with two (2) buildings. • The surrounding Phase I Study Area has been developed with residential and commercial properties to the east and residential properties to the northwest and south.
1988	<ul style="list-style-type: none"> • No significant observations were made for the Site or surrounding area since the 1979 aerial photographs.
2002	<ul style="list-style-type: none"> • No significant observations were made for the Site or surrounding area since the 1979 aerial photographs.
2018	<ul style="list-style-type: none"> • No significant observations were made for the Site or surrounding area since the 1979 aerial photographs.

Based on the review of the aerial photographs, the following PCA was identified:

- a) Fill material may have been imported to the Site to regrade the Site, the Site is associated with PCA#30 – Importation of Fill Material of Unknown Quality.

3.5.2 Topography, Hydrology and Geology

The following physiographic, geological and soil maps were reviewed on January 11, 2021:

- a) Atlas of Canada – Toporama Topographic Map (Toporama);
- b) Ontario Base Map (OBM);
- c) Ontario Ministry of Energy, Northern Development and Mines (MENDM) website, Bedrock Geology of Ontario, 2011 – MRD 126; and Paleozoic Geology of Southern Ontario, 2007 – MRD 219 (KML format);
- d) Ontario MENDM website, Surficial Geology of Southern Ontario, 2010. (KML format); and,
- e) Ontario MENDM website, Physiography of Southern Ontario 2007 (KML format).

Based on the review of the above maps, the following information was obtained:

- a) The Site is at an elevation of approximately 102 m above sea level (asl), generally at the same elevation as properties surrounding the Site.
- b) No water bodies are located on the Site. The nearest water body is a tributary to Morrison Creek which is located approximately 335 m east and Lake Ontario is located approximately 2.0 km to the southeast.
- a) The inferred groundwater flow direction is likely towards the south/southeast.
- b) The bedrock in the general area of the Site corresponds to the Georgian Bay Formation, Blue Mountain Formation, Billings Formation, Collingwood Member and Eastview Member consisting of shale, limestone, dolostone and siltstone. The contact between the bedrock and the overlying overburden is expected to be at approximately 3 m bgs.
- c) The surficial geology of the Site is described as Paleozoic bedrock.
- d) The physiography of the site is within the Iroquois Plains characterized as shale plains.

3.5.3 Fill Material

Fill can be used to re-grade a property and to backfill excavations and parking lots. Based on the review of the historical information, there is potential that fill material was used to grade the currently existing parking lots.

3.5.4 Water Bodies and Areas of Natural Significance

No water bodies are located on-Site. The nearest water body is a tributary to Morrison Creek which is located approximately 335 m east of the Site and Lake Ontario is located approximately 2.0 km to the southeast. The inferred groundwater flow direction is likely towards the south/southeast.

Based on the review of available resources from the Ministry of Natural Resources and Forestry (MNRF) on January 29, 2021, no areas of natural significance were identified at the Site or within the Phase One Study Area.

3.5.5 Well Records

3.5.5.1 Water Wells

The MECP maintains a database (published from 1955 to present) of water wells drilled in Ontario in accordance with Ontario Regulation 903. The Ontario Well Record website was accessed on January 29, 2021, to identify if any wells exist on the Site or within the Phase One Study Area. Based on the search, two (2) records were identified at the Site. The wells were installed in 2004 and 2018 for observation purposes to a maximum depth of 5.1 m bgs. Based on the well record, the general soil description of the Site consisted of fill, sand and shale. Thirty-nine (39) records were identified within the Phase One Study Area. The wells were installed between 2004 to 2016 for monitoring, test hole, observation and dewatering purposes at depths ranging from 0.3 m to 6.1 m bgs. Based on the well records, the general soil stratigraphy in the vicinity of the Site consisted of fill, sand and clay underlain by shale.

It should be noted that the ERIS report identified two (2) records on Site and thirty-nine (39) well records within the Phase One Study Area.

3.5.5.2 Oil, Gas, and Salt Well

A search of the Oil, Gas & Salt Resources Library (2014) website was completed to identify oil, gas and salt wells within the vicinity of the Site on January 29, 2021. The search of the website indicated there were no oil, gas or salt wells identified to be located at the Site or within the Phase One Study Area.

3.5.6 Record of Site Condition (RSC)

An RSC summarizes the environmental conditions of a property as determined by a qualified person (QP) by conducting a Phase One ESA, and where necessary, a Phase Two ESA, confirmatory sampling and a risk assessment. Upon completion of the necessary environmental Site assessments, an RSC for an assessed property can be filed with the MECP and added to the BESR database. This online, publicly available database can be searched to identify what properties may have potential environmental concerns.

Based on the search of the MECP's BESR database completed by ERIS, no records were identified at the Site. The following records were identified for the properties within the Phase One Study Area:

- a) The Site with no municipal address approximately 200 m southeast, filed an RSC for Commercial Use.
- b) The property located at 148 Cross Avenue approximately 205 m southwest filed an RSC for commercial and residential property use in 1999.
- c) The property located at 485 Trafalgar Road, approximately 220 m southeast filed an RSC for commercial property use in 2008.
- d) The property located at 457 Reynolds Street, approximately 240 m east filed an RSC for residential property use in 1999.

Based on the description of the records, no PCAs were identified.

3.6 Site Operating Records

In general, a request is usually made to the property representative for copies of any operating records pertaining to the environmental conditions at the Site. Records would include: regulatory permits; Safety Data Sheets (SDS) for all chemicals that were handled on-Site; underground utility drawings; inventories of chemicals, chemical usage, and chemical storage areas; inventory of aboveground storage tanks (ASTs) and USTs; environmental monitoring data; correspondence pertaining to an order or request by the MECP or TSSA; waste management records; process, production, and maintenance documents; records of spills and records of discharges of chemicals; emergency response and contingency plans, including spill prevention and contingency plans; environmental audit reports; and site plans of the facility showing areas of production and manufacturing.

No Site operating records were available to review.

4. Interviews

An interview was conducted by BIG staff with the individual identified to be the most knowledgeable about both the current and historical Site uses. The interview was conducted by phone in order to obtain information to assist in identifying details of potentially contaminating activities, potential contaminant pathways in, on, or below the Site, and areas of potential environmental concern. Any information provided during the interviews is presented alongside information from the Site reconnaissance in Section 5.

During the completion of this Phase One ESA, the following individual was interviewed:

- a) Mr. Clarence Qian, Development Manager of Oakville Argus Cross LP has known about the Site since 2020.

Information obtained during the interview is provided below, in the relevant sections.

5. Site Reconnaissance

5.1 General Requirements

The Phase One ESA Site reconnaissance was conducted on Friday, December 14, 2020 between 9:30 am and 10:30 am by Mr. Aiden Belfrage, B.E.S. On the day of the Site reconnaissance, the weather was cloudy (approximately 2°C).

The Site and the adjoining properties were observed from the Site and/or publicly accessible areas. Photographs documenting the Site visit are included in Appendix I.

5.2 Specific Observations at Phase One ESA Property

5.2.1 Site Description and Buildings

The Site is located south of the Queen Elizabeth Way, north of Cross Avenue and east of Argus Road Oakville, Ontario, as shown on Figure 1. The Site measures approximately 8,779 m² in size. The Site is currently occupied by three (3) restaurants, McDonalds, Swiss Chalet and Harvey's. The rest of the Site is occupied by parking area with one (1) undeveloped area at 571 Argus Road. De-icing salts may have been used in the parking lot and is associated with PCA "Other" – Usage of De-icing Salts.

5.2.2 Heating and Cooling Systems

The Site buildings are heated by gas.

5.2.3 Site Utilities and Services

The Site utilities and services were identified at the Site based on the relevant utility infrastructure observed during the Site reconnaissance and are summarized in the table below. It is noted that the precise underground location of the utilities cannot be determined without professional locate services.

Utility	Source	Location	Site Entry
Storm Sewer	Town of Oakville	Entrance of Site	A catch basin is located at the entrance of Site as well throughout the parking lots.
Sanitary Sewer	Town of Oakville	Cross Avenue	A manhole in front of Site on Cross Avenue
Natural Gas	Enbridge Gas	South	Given that the Site is located in a mixed residential and commercial area, the natural gas lines are anticipated to run along Cross Avenue and Argus Road.
Electricity	Oakville Hydro	South	Overhead hydro lines were observed along Cross Avenue and Argus Road.

5.2.4 Site Production and Manufacturing

No on-Site production or manufacturing processes were observed at the Site during the Site reconnaissance.

5.2.5 Drains, Pits and Sumps

Based on the Site representative, a floor drain is located in the kitchen. On-Site at 227 Cross Avenue there was one (1) grease pit based in the northern portion of the Site building. No staining or overflow was observed. The excess oil was stored in an aboveground storage tank and disposed of weekly by an appropriate contractor. No PCAs were identified.

On-Site at 217 Cross Avenue one (1) de-greasing tank within the kitchen area of the restaurant, which is used to clean large stainless-steel cooking utensils and equipment parts. The degreasing tank was installed

within 2019 and was maintained and cleaned by a third party, every two weeks. There were no signs of leakage or staining observed, and the tank appeared to be in good condition.

5.2.6 Storage Tanks

5.2.6.1 Underground Storage Tanks (UST)

The presence/absence and condition (if present) of USTs at the Site was assessed during the Site reconnaissance. BIG did not observe any evidence of USTs during the Site reconnaissance, and the Site representative had no knowledge of any historical or current USTs at the Site.

5.2.6.2 Aboveground Storage Tanks (AST)

The presence/absence and condition (if present) of ASTs at the Site was assessed during the Site reconnaissance. BIG did not observe any evidence of ASTs during the Site reconnaissance, and the Site representative had no knowledge of any historical or current ASTs at the Site.

5.2.7 Water Wells

Six (6) monitoring wells were observed at the Site or within the Phase One Study Area during the Site reconnaissance.

5.2.8 Site Housekeeping

The Site at 217 and 227 Cross are well maintained and 571 Argus Road is vacant. No debris, outdoor storage, or uncontrolled waste storage were noted during the Site reconnaissance.

5.2.9 Chemical Storage and Handling and Floor Condition

No chemical storage was observed at the Site at the time of the Site reconnaissance.

5.2.10 Areas of Stained Soil, Pavement or Stressed Vegetation

No staining on the pavement surfaces and no stressed vegetation was observed at the time of the Site reconnaissance.

5.2.11 Fill and Debris

Fill can be used to re-grade a property and to backfill excavations, such as locations of former USTs. No fill piles or debris were observed at the Site during the Site reconnaissance.

5.2.12 Air Emissions

Regulatory control of air emissions in Ontario is the responsibility of the MECP. No sources of active air emissions were noted at the Site or within the Phase One Study Area during the Site reconnaissance.

5.2.13 Polychlorinated Biphenyls (PCBs)

The manufacture of PCBs in North America was prohibited under the Toxic Substances Control Act (1977). Their use as a constituent of new products manufactured in or imported into Canada was prohibited by regulations in 1977 and 1980. As such, sites developed or significantly renovated after 1980 are unlikely to have PCB-containing equipment on the Site. Potential equipment, which could contain PCBs include fluorescent mercury and sodium vapour light ballasts, oil filled capacitors and transformers. Any electrical equipment containing PCBs must be disposed in accordance with Ontario Regulation 362 when it is removed from service. Ongoing operation of equipment containing PCBs is permissible.

Based on the records review and the Site reconnaissance, no significant sources of PCBs were present on the Site.

Based on the Site reconnaissance one (1) transformer was located at the property 233 Cross Avenue, approximately 32 m east. The transformer was manufactured November 2018 and was filled with non-PCB mineral oil. No PCAs were identified.

5.3 Enhanced Investigation Property Observations

An Enhanced Investigation Property is “(i) a property used, or has ever been used, in whole or part, for an industrial purpose, or (ii) a commercial property used as a garage, a bulk liquid dispensing facility, including a gasoline outlet or for the operation of dry-cleaning equipment” (O.Reg. 153/04).

Based on the records review, the Site is not classified as an Enhanced Investigation Property.

5.4 Adjacent and Surrounding Properties

A visual inspection of the adjacent properties and properties within the Phase One Study Area was conducted from publicly accessible areas to identify the occupants; and to document any PCAs that may be contributing to an APEC at the Site.

Location of Adjoining Properties	Property Use
North	Commercial (Ellephysio and Oakville Pelvic Health)
South	Transit (Oakville Go Station)
East	Commercial (Oak-land Ford Lincoln Dealer and service center, auto parts store and TopHat Cleaners)
West	Commercial (AllFix Automotive and Coin Op Car Wash.)

Based on the visual inspection of adjacent and surrounding properties within the Phase One Study Area, the following PCA was identified:

- a. The property located at 233 Cross Avenue, approximately 30 m east, is occupied by Top Hat Cleaners. Top Hat Cleaners has been environmentally certified in Ontario since 2002, no PCAs were identified.
- b. The property located at 570 Trafalgar Road Oak-land, approximately 75 m northwest, Ford Lincoln Dealer and service center. The property is associated with PCA#10 – Commercial Autobody Shops.
- c. The property located at 570 Argus Road, approximately 20 m west, occupied by Argus Automotive in 2000 and currently is occupied by AllFix Automotive and Coin Op Car Wash. The property is associated with PCA10 – Commercial Autobody Shops.

5.5 Written Description of Investigation

A reconnaissance of the Site was conducted by BIG to examine the exterior and interior of all on-Site buildings and structures, and to examine the exterior portions of the Site. Access was provided to the interiors of Site buildings, if any. Mechanical equipment (including heating and cooling systems) was documented and characterized, as was any evidence of USTs and ASTs. The exterior portions of the Site were examined for evidence of utilities and related infrastructure; water wells; Site drainage and related infrastructure; stained areas; stressed vegetation; and, evidence of fill material.

The reconnaissance included an examination of all properties within the Phase One Study Area from public access ways to document and characterize PCAs, water bodies and areas of natural significance.

6. Review and Evaluation of Information

6.1 Current and Past Uses

Based on the reviewed records, the Site at 227 Cross Avenue was first developed from vacant and undeveloped to residential use in 1930s, a greenhouse was identified on-Site in the mid 1960s and the current residential/commercial Site building (McDonalds) was first observed in late 1970s. The Site at 217 Cross Avenue was first developed from vacant and undeveloped to the current residential/commercial use (Swiss Chalet and Harveys) in the late 1970s. The Site at 571 Argus Road has remained vacant and undeveloped. A more detailed discussion of the Site history based on the available documentation is provided in the following sections of the report. The current and past ownership of the Site is summarized in Table II.

6.2 Potentially Contaminating Activities (PCAs)

A list of all the PCAs identified at the Site and within the Phase One Study Area is summarized below and included as Table III and on Figure 2. Based on the inferred groundwater flow direction to the south/southeast, the properties within the Phase One Study Area to the south of the Site are considered to be hydraulically downgradient of the Site; properties to the northwest are considered to be hydraulically upgradient of the Site; and the properties to the west and east of the Site were considered to be hydraulically trans-gradient to the Site. Any PCAs located downgradient or trans-gradient of the Site are not considered to be contributing to an APEC on Site.

Furthermore, any PCAs located significantly distant from the Site were considered to be too far to be contributing to an APEC on the Site.

Rationale outlining whether a PCA contributed to an APEC at the Site is summarized below and provided in Table III.

PCA Identifier	Address	PCA	PCA Location	Contributing to APEC at the Site?	Rationale
1.	217 - 227 Cross Avenue and 571 Argus Road	De-icing salt usage (PCA“Other” – Usage of De-icing Salts)	On-Site	Yes	On-Site
2.		Unknown Fill Material (PCA#30 – Importation of Fill Material of Unknown Quality)	On-Site	Yes	On-Site
3.	568, 570 and 572 Argus Road	Former sheet metal shop (PCA#34 metal fabrication)	Off-Site (20 m west)	Yes	Close proximity
4.	570 Argus Road	Autobody shop (PCA#10 – Commercial Autobody Shops)	Off-Site (20 m west)	Yes	Close proximity

PCA Identifier	Address	PCA	PCA Location	Contributing to APEC at the Site?	Rationale
5.	187 Cross Avenue	Former dry cleaner (PCA#37 – Operation of Dry Cleaning Equipment (Where Chemicals are Used))	Off-Site (30 m southwest)	No	Located down-gradient
6.	233 Cross Avenue	Former dry cleaner (PCA#37 – Operation of Dry Cleaning Equipment (Where Chemicals are Used))	Off-Site (30 m east)	No	Inferred trans-gradient
7.	185 Cross Avenue	Tanning (PCA#53 Tanning)	Off-Site (65 m southwest)	No	Located down-gradient
8.	570 Trafalgar Road	Auto service (PCA#10 – Commercial Autobody Shops)	Off-Site (75 m northeast)	No	Inferred trans-gradient
9.	218 Cross Avenue	Former UST (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Off-Site (90 m south)	No	Located down-gradient
10.	214 Cross Avenue	Railway tracks (PCA#46 – Rail Yards, Tracks and Spurs)	Off-Site (95 m southeast)	No	Located down-gradient
11.	562 Trafalgar Road	Former service station (PCA#10 – Commercial Autobody Shops)	Off-Site (125 m east)	No	Inferred trans-gradient
12.		Former service station (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)			
13.	165 Cross Avenue	Former textile mill (PCA#54 – Textile Manufacturing and Processing)	Off-Site (140 m southwest)	No	Located down-gradient
14.	580 Argus Road	Autobody shop (PCA#10 – Commercial Autobody Shops)	Off-Site (150 m west)	Yes	Inferred trans-gradient
15.	547 Trafalgar Road	Former Paint Manufacturing (PCA#39 Paints Manufacturing, Processing and Bulk Storage)	Off-Site (160 m east)	No	Inferred trans-gradient

PCA Identifier	Address	PCA	PCA Location	Contributing to APEC at the Site?	Rationale
16.		Former autobody shop (PCA#10 – Commercial Autobody Shops)			
17.	125 Cross Avenue	Former fuel tanks (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Off-Site (190 m west)	No	Inferred trans-gradient
18.		Former Auto Body Shop (PCA#10 Commercial Auto Body Shops)			
19.		Former Dry Cleaner (PCA#37 Operation of Dry-Cleaning Equipment)			
20.	148 Cross Avenue	Former iron foundry (PCA#32 Iron and Steel Manufacturing and Processing)	Off-Site (206 m southwest)	No	Located down-gradient
21.	489 Trafalgar Road	Former USTs (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Off-Site (215 m south)	No	Located down-gradient
22.	2 Dundas Street North	Former service station (PCA#10 Commercial Auto Body Shops)	Off-Site (215 m south)	No	Located down-gradient
23.		Former service station (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)			
24.	485 Trafalgar Road	Former UST (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Off-Site (220 m southeast)	No	Located down-gradient
25.	462 Trafalgar Road	Former fuel tanks (PCA#28 Gasoline and Associated Products Storage in Fixed Tanks)	Off-Site (230 m southeast)	No	Located down-gradient
26.	457 Reynolds Street	Former commercial trucking (PCA#11 – Commercial Trucking and Container Terminals)	Off-Site (240 m east)	No	Inferred trans-gradient
27.		Former fuel tank			

PCA Identifier	Address	PCA	PCA Location	Contributing to APEC at the Site?	Rationale
		(PCA#28 – Gasoline and Associated Products Storage in Fixed Tank)			
28.		Former plastic manufacturer (PCA#43 – Plastics (including Fibreglass) Manufacturing, Processing and Bulk Storage)			
29.	152 Cross Avenue	Former dry cleaner (PCA#37 – Operation of Dry Cleaning Equipment)	Off-Site (240 m west)	No	Inferred trans-gradient
30.	142 Cross Avenue	Former Autobody shop (PCA#10 – Commercial Auto Body Shops)	Off-Site (245 m west)	No	Inferred trans-gradient
31.	541 Dundas North	Former Autobody shop (PCA#10 – Commercial Auto Body Shops)	Off-Site (250 m south)	No	Located down-gradient

No other PCAs were identified for the surrounding properties.

6.3 Areas of Potential Environmental Concern (APECs)

A total of thirty-one (31) PCAs were identified at the Site, four (4) of which were considered as APECs, as the majority of the PCAs were either located at a significant distance from the Site or were located hydraulically downgradient or trans-gradient to the Site they are not regarded as APECs. A summary of identifies APECs is included in the table below.

Area of Potential Environmental Concern (APEC) ¹	Location of APEC on Phase One Property	Potentially Contaminating Activity (PCA) ²	Location of PCA (On-Site or Off-Site) ²	Potential Contaminants of Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC 1: De-icing salt usage	Exterior of Site buildings	PCA“Other” – Usage of De-icing Salts	On-Site	Electrical Conductivity, SAR, Sodium and Chloride	Soil and Groundwater
APEC 2: Unknown fill materials	Exterior of Site buildings	PCA#30 – Importation of Fill Material of Unknown Quality	On-Site	PAHs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Soil and Groundwater
APEC 3: Former sheet metal shop	Western portion	Former Metal Fabrication	Off-Site	VOCs, metals, As, Sb, Se, Cr (VI), Hg, B-	Groundwater

Area of Potential Environmental Concern (APEC) ¹	Location of APEC on Phase One Property	Potentially Contaminating Activity (PCA) ²	Location of PCA (On-Site or Off-Site) ²	Potential Contaminants of Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
		(PCA#34 metal fabrication)		HWS, CN-, low or high pH	
APEC 4: Autobody shop	Western portion	PCA#10 commercial auto body shops	Off-Site	VOCs, PHCs, BTEX	Groundwater

(1) Area of Potential Environmental Concern means the area on, in or under a phase one study area where one or more contaminants are potentially present, as determined through the Phase One ESA including through:

- a. Identification of past or present uses on, in or under the phase one property, and
 - b. Identification of potentially contaminating activities.
- (2) Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a phase one study area.

PHCs = petroleum hydrocarbons; BTEX = benzene, toluene, ethylbenzene and toluene; VOCs = volatile organic compounds; PAHs = polycyclic aromatic hydrocarbons; As = arsenic, Sb = antimony, Se = selenium; Cr (VI) = chromium hexavalent; Hg = mercury; B-HWS = boron hot water soluble; CN- = cyanide; EC = electrical conductivity; SAR = sodium adsorption ratio

6.4 Phase One ESA Conceptual Site Model

This section presents the Phase One Conceptual Site Model providing a narrative, graphical and tabulated description integrating information related to the Site geologic and hydrogeologic conditions, areas of potential environmental concern/potential contaminating activities, and the presence and distribution of potential contaminants of concern. These components are discussed in the following sections.

Surface Features

The Site is located south of the Queen Elizabeth Way, north of Cross Avenue and east of Argus Road Oakville, Ontario, as shown on Figure 1. The Site measures approximately 8,779 m² in size and is currently occupied by two (2) commercial buildings (Site buildings) at 217 and 227 Cross Avenue and one (1) vacant and undeveloped area at 571 Argus Road. The Site buildings have a combined footprint of approximately 870 m² and occupy approximately 10 % of the Site. The remainder of the Site is covered with an asphalt and landscaped areas.

The legal description of the Site as obtained from the chain of title is “Part Lot 13, 14, Concession 3 Trafalgar, South of Dundas Street, as in 765240; Oakville/Trafalgar. Subject to Easement H816821 Over Part 1, 20R13210”, “Part Lot 13, Concession 3 Trafalgar, South of Dundas Street, Part 4, 5, 20R3864, Subject to 487336, Subject to 487707; “Amended July 28’99 J. Menard”. Subject to easement H816820 Over Parts 2 and 3, 20R13210.; Town of Oakville” and “Part Lots 13 & 14, Concession 3 Trafalgar South of Dundas Street, as in H857135; Town of Oakville ”. The legal survey plans are included in Appendix B.

Surrounding Land Use

The Site is bound to the north by commercial properties followed by Argus Road, bound to the east by commercial properties followed by Trafalgar Road, bound to the south by Cross Avenue followed by Oakville Go Transit Station and bound to the west by Argus Road followed by commercial properties. A Site Plan is provided as Figure 2.

Geological and Hydrogeological Conditions

The Site is at an elevation of approximately 102 m above sea level (asl), generally at the same elevation as properties surrounding the Site.

The bedrock in the general area of the Site corresponds to the Georgian Bay Formation, Blue Mountain Formation, Billings Formation, Collingwood Member and Eastview Member consisting of shale, limestone, dolostone and siltstone. The contact between the bedrock and the overlying overburden is expected to be at approximately 3 m bgs. The surficial geology of the Site is described as Paleozoic bedrock. The physiography of the site is within the Iroquois Plains characterized as shale plains.

No water bodies are located on the Site. The nearest water body is a tributary to Morrison Creek which is located approximately 335 m east and Lake Ontario is located approximately 2.0 km to the southeast. The inferred groundwater flow direction is likely towards the south/southeast.

Based on the review of available resources from the Ministry of Natural Resources and Forestry (MNRF) on January 29, 2021, no areas of natural significance were identified at the Site or within the Phase I Study Area.

Underground Utilities

The Site utilities and services were identified at the Site based on the relevant utility infrastructure observed during the Site reconnaissance and are summarized in the table below. It is noted that the precise underground location of the utilities cannot be determined without professional locate services.

Utility	Source	Location	Site Entry
Storm Sewer	Town of Oakville	Entrance of Site	A catch basin is located at the entrance of Site as well throughout the parking lots.
Sanitary Sewer	Town of Oakville	Cross Avenue	A manhole in front of Site on Cross Avenue
Natural Gas	Enbridge Gas	South	Given that the Site is located in a mixed residential and commercial area, the natural gas lines are anticipated to run along Cross Avenue and Argus Road.
Electricity	Oakville Hydro	South	Overhead hydro lines were observed along Cross Avenue and Argus Road.

Potentially Contaminating Activities and Areas of Potential Environmental Concern:

A total of thirty-one (31) PCAs were identified at the Site, four (4) of which were considered as APECs, as the majority of the PCAs were either located at a significant distance from the Site or were located hydraulically downgradient or trans-gradient to the Site they are not regarded as APECs. A summary of identifies APECs is included in the table below.

Area of Potential Environmental Concern (APEC) ¹	Location of APEC on Phase One Property	Potentially Contaminating Activity (PCA) ²	Location of PCA (On-Site or Off-Site) ²	Potential Contaminants of Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC 1: De-icing salt usage	Exterior of Site buildings	PCA "Other" – Usage of De-icing Salts	On-Site	Electrical Conductivity, SAR, Sodium and Chloride	Soil and Groundwater
APEC 2: Unknown fill materials	Exterior of Site buildings	PCA#30 – Importation of Fill Material of Unknown Quality	On-Site	PAHs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Soil and Groundwater

Area of Potential Environmental Concern (APEC)¹	Location of APEC on Phase One Property	Potentially Contaminating Activity (PCA)²	Location of PCA (On-Site or Off-Site)²	Potential Contaminants of Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC 3: Former sheet metal shop	Western portion	Former Metal Fabrication (PCA#34 metal fabrication)	Off-Site	VOCs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Groundwater
APEC 4: Autobody shop	Western portion	PCA#10 commercial auto body shops	Off-Site	VOCs, PHCs, BTEX	Groundwater

(1) Area of Potential Environmental Concern means the area on, in or under a phase one study area where one or more contaminants are potentially present, as determined through the Phase One ESA including through:

- a. Identification of past or present uses on, in or under the phase one property, and
- b. Identification of potentially contaminating activities.

(2) Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a phase one study area.

PHCs = petroleum hydrocarbons; BTEX = benzene, toluene, ethylbenzene and toluene; VOCs = volatile organic compounds; PAHs = polycyclic aromatic hydrocarbons; As = arsenic, Sb = antimony, Se = selenium; Cr (VI) = chromium hexavalent; Hg = mercury; B-HWS = boron hot water soluble; CN- = cyanide; EC = electrical conductivity; SAR = sodium adsorption ratio

7. Conclusions

Based on the findings and conclusions of the Phase One ESA, a Phase Two ESA is required to assess the soil and groundwater conditions at the Site.

7.1 Closure

This Phase One ESA was conducted in accordance with O.Reg.153/04, as amended, and in accordance with generally accepted professional practices. Subject to this standard of care, BIG makes no express or implied warranties regarding its services and no third-party beneficiaries are intended. Limitation of liability, scope of report and third-party reliance are outlined in Appendix A.

Yours truly,

B.I.G. Consulting Inc.

Rebecca Morrison, M.Env.Sc.
Project Manager

Darko Strajin, P.Eng.
Managing Partner

Table III**POTENTIALLY CONTAMINATING ACTIVITIES (PCAs)**

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

217,227 Cross Avenue and 571 Argus Road, Oakville, Ontario

PCA Identifier	Address	Location of Activity (In relation to Site)¹	Potentially Contaminating Activity (PCA)²	Description and Approximate timeline that PCA Occurred	Contribution to APEC at the Site
1.	217 - 227 Cross Avenue and 571 Argus Road	On-Site	De-icing salt usage (PCA“Other” – Usage of De-icing Salts)	Based on the Site reconnaissance, the Site at 217 and 227 Cross Avenue had large parking lots where de-icing salt was used.	Yes
2.		On-Site	Unknown Fill Material (PCA#30 – Importation of Fill Material of Unknown Quality)	Based on the aerial photographs, fill material may have been imported to the Site to regrade the Site	Yes
3.	568, 570 and 572 Argus Road	Off-Site (20 m west)	Former Sheet Metal Shop (PCA#34 metal fabrication)	Based on the FIP from 1967, the properties located at 568, 570 and 572 Argus Road approximately 20 m west, had operations of sheet metal, workshop, printing, and sheet metal.	Yes
4.	570 Argus Road	Off-Site (20 m west)	PCA#10 – Commercial Autobody Shops	Based on the city directory, the property located at 570 Argus Road, approximately 20 m west, was occupied by Argus Automotive in 2000.	Yes
5.	187 Cross Avenue	Off-Site (30 m southwest)	Former dry cleaner (PCA#37 – Operation of Dry Cleaning Equipment (Where Chemicals are Used))	Based on the city directory, the property located at 187 Cross Avenue, approximately 29 m southwest by Rodeo Dry Cleaners in 1994 had operations of dry cleaning.	None Located down-gradient
6.	233 Cross Avenue	Off-Site (30 m east)	Former dry cleaner (PCA#37 – Operation of Dry Cleaning Equipment (Where Chemicals are Used))	Based on city directories, the property located at 233 Cross Avenue, approximately 32 m east was occupied by Top Hat Cleaners in 2000 and had operations of dry cleaning.	None Inferred trans-gradient
7.	185 Cross Avenue	Off-Site (65 m southwest)	Tanning (PCA#53 Tanning)	Based on the FIPs and city directories, the property located at 185 Cross Avenue, approximately 65 m east, was occupied by James R. Kendall Leather Co. LTD. from 1965-1975 and had operations of tanning.	None Located down-gradient
8.	570 Trafalgar Road	(75 m northeast)	PCA#10 – Commercial Autobody Shops	Based on the Site reconnaissance, the property located at 570 Trafalgar Road Oak-land,	None

Table III

POTENTIALLY CONTAMINATING ACTIVITIES (PCAs)

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

217,227 Cross Avenue and 571 Argus Road, Oakville, Ontario

PCA Identifier	Address	Location of Activity (In relation to Site)¹	Potentially Contaminating Activity (PCA)²	Description and Approximate timeline that PCA Occurred	Contribution to APEC at the Site
				approximately 75 m northwest, Ford Lincoln Dealer and service center.	Inferred trans-gradient
9.	218 Cross Avenue	Off-Site (90 m south)	Former UST (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Based on the FIPs and the city directories, the property located at 218 Cross Avenue approximately 90 m to the south was a diaper service. There was one (1) fuel oil underground storage tank and one (1) underground gasoline service tank located on the property in 1965.	None Located down-gradient
10.	214 Cross Avenue	Off-Site (95 m southeast)	PCA#46 – Rail Yards, Tracks and Spurs	Based on the city directories, the property located at 214 Cross Avenue, approximately 95 m southeast, was occupied by Canadian Pacific Express Co/Canadian National Railway between 1965 and 1971.	None Located downgradient
11.	562 Trafalgar Road	Off-Site (125 m east)	Former service station (PCA#10 – Commercial Autobody Shops)	Based on FIPs, ERIS, city directories and TSSA, the property located at 562 Trafalgar Road, approximately 125 m east of Site, was occupied by Flieger’s Texaco Service Station and Roy Fleiger LTD service station in 1965 to 1989 and had nine (9) fuel storage liquid fuel tanks and one (1) retail fuel storage tank.	None Inferred trans-gradient
12.			Former service station (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)		
13.	165 Cross Avenue	Off-Site (140 m southwest)	PCA#54 – Textile Manufacturing and Processing	Based on ERIS, the property located at 165 Cross Avenue, approximately 140 m southwest occupied by Instant Imprints Canada Inc., was listed as having commercial screen printing, other printing, textile product mills, sign manufacturing, lessors of non-financial intangible assets and commercial screen printing.	None Located down-gradient

Table III

POTENTIALLY CONTAMINATING ACTIVITIES (PCAs)

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

217,227 Cross Avenue and 571 Argus Road, Oakville, Ontario

PCA Identifier	Address	Location of Activity (In relation to Site)¹	Potentially Contaminating Activity (PCA)²	Description and Approximate timeline that PCA Occurred	Contribution to APEC at the Site
14.	580 Argus Road	Off-Site (150 m west)	#10 – Commercial Autobody Shops	Based on the city directories, the property located at 580 Argus Road, approximately 150 m west of the site, was occupied by Jet Auto Centre in 1989-1994 and Ace Automotive in 2000.	None Inferred trans-gradient
15.	547 Trafalgar Road	Off-Site (160 m east)	Former Paint Manufacturing (PCA#39 Paints Manufacturing, Processing and Bulk Storage)	Based on FIPs, ERIS and city directories, the property located at 547 Trafalgar Road, approximately 160 m east of Site, was occupied by British Paints (Canada) LTD and Queenston Twin Motors in 1965 to 1975.	None Inferred trans-gradient
16.			(PCA#10 – Commercial Autobody Shops)		
17.	125 Cross Avenue	Off-Site (190 m west)	Former USTs (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Based on the FIPs and city directories the property located at 125 Cross Avenue, approximately 190 m west, occupied by Kendall Jas R Leather CO LTD in 1965-1971, Firestone Tire and Rubber Co of Can Ltd 1971-1989, Woolco Auto Centre 1989-1994, Cadet Cleaners 1984-2000 and Dominion in 1967 which had two (2) fuel oil tanks were located south east of the building.	None Inferred trans-gradient
18.			Former Auto Body Shop (PCA#10 Commercial Auto Body Shops)		
19.			Former Dry Cleaner (PCA#37 Operation of Dry-Cleaning Equipment)		
20.	148 Cross Avenue	Off-Site (205 m southwest)	(PCA#32 Iron and Steel Manufacturing and Processing)	Based on ERIS the property located at 148 Cross Avenue, approximately 206 m south, southwest, occupied by Wotherspoon Foundry Ltd., was waste generator of steel making residues, acid waste, paint/pigment/coating residues, petroleum distillates and waste oils and lubricants between 1986 and 2001.	None Located down-gradient

Table III

POTENTIALLY CONTAMINATING ACTIVITIES (PCAs)

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

217,227 Cross Avenue and 571 Argus Road, Oakville, Ontario

PCA Identifier	Address	Location of Activity (In relation to Site)¹	Potentially Contaminating Activity (PCA)²	Description and Approximate timeline that PCA Occurred	Contribution to APEC at the Site
21.	489 Trafalgar Road	Off-Site (215 m south)	Former USTs (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Based on the FIP from 1967, the property located at 489 Trafalgar Road, approximately 215 m south occupied by Hillmers Fuel & Ice Lt had One (1) UST located south of office building and one UST oil tank located east of 489B.	None Located down-gradient
22.	2 Dundas North	Off-Site (215 m south)	PCA#10 – Commercial Autobody Shops	Based on the FIP from 1932, the property located at 2 Dundas Street North approximately 215 m south was occupied by a gasoline service station. One (1) UST was located west of the building.	None Located down-gradient
23.			Former service station (PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)		
24.	485 Trafalgar Road	Off-Site (220 m southeast)	(PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Based on the FIPs, ERIS and city directories, the property located at 485 Trafalgar Road, approximately 220 m east southeast, occupied by Hilmer's Coal Yard in 1932 had one (1) UST located south of the building, Main Lumber Ltd. in 1967, West Marine from 1992-2017.	None Located down-gradient
25.	462 Trafalgar Road	Off-Site (230 m southeast)	(PCA#28 – Gasoline and Associated Products Storage in Fixed Tanks)	Based on the ERIS and municipal city directories the property located at 462 Trafalgar Road, approximately 230 m southeast, occupied by Kemsan Inc in 1989-2000, had two (2) fuel storage liquid fuel tanks and one (1) private fuel storage tank.	None Located down-gradient

Table III

POTENTIALLY CONTAMINATING ACTIVITIES (PCAs)

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

217,227 Cross Avenue and 571 Argus Road, Oakville, Ontario

PCA Identifier	Address	Location of Activity (In relation to Site)¹	Potentially Contaminating Activity (PCA)²	Description and Approximate timeline that PCA Occurred	Contribution to APEC at the Site
26.	457 Reynolds Street	Off-Site (240 m east)	PCA#11 – Commercial Trucking and Container Terminals	Based on ERIS, the property located at 457 Reynolds Street, approximately 238 m east, occupied by Canadian General-Tower Ltd. and Starline Productions Rentals Inc., was a waste generator of paint/pigment/coating residues, aliphatic solvents, petroleum distillates, oil skimmings and sludges, waste oils and lubricants, heavy fuels, PCB's and organic laboratory chemicals between 1986 and 2009 and had one (1) fuel storage liquid fuel tank and one (1) private fuel storage tank.	None Inferred trans-gradient
27.			PCA#28 – Gasoline and Associated Products Storage in Fixed Tank.		
28.			PCA#43 – Plastics (including Fibreglass) Manufacturing, Processing and Bulk Storage.		
29.	152 Cross Avenue	Off-Site (240 m west)	Former dry cleaner (PCA#37 – Operation of Dry Cleaning Equipment)	Based on the city directories, the property located at 152 Cross Avenue, approximately 239 m west occupied by Cadet Cleaners in 1984-1989.	None Inferred trans-gradient
30.	142 Cross Avenue	Off-Site (245 m west)	Former Autobody shop (PCA#10 – Commercial Auto Body Shops)	Based on the city directories, the property located at 142 Cross Avenue, approximately 245 m west occupied by Noel's Auto Service in 1984-2000 and Jager's Automotive LTD in 1994-2000.	None Inferred trans-gradient
31.	541 Dundas North	Off-Site (250 m south)	Former autobody shop (PCA#10 – Commercial Autobody Shops)	Based on the FIP from 1932, the property located, approximately 250 m south, had operations involving rubber.	None Located down-gradient

Notes:
 (1) Distances are approximately only. Precise distances are not possible due to the age of some listings and the aggregation and/or loss of addresses.
 (2) Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D (O.Reg 153/04. as amended) which is occurring or has occurred in a Phase One Study Area.

Table IV

AREAS OF POTENTIAL ENVIRONMENTAL CONCERN (APECs)

(Refer to clause 16(2)(b), Schedule D, O. Reg. 153/04)

217, 227 Cross Avenue and 571 Argus Road, Oakville, Ontario

Area of Potential Environmental Concern (APEC)¹	Location of APEC on Phase One Property	Potentially Contaminating Activity (PCA)²	Location of PCA (On-Site or Off-Site)²	Potential Contaminants of Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
APEC 1: De-icing salt usage	Exterior of Site buildings	PCA "Other" – Usage of De-icing Salts	On-Site	Electrical Conductivity, SAR, Sodium and Chloride	Soil and Groundwater
APEC 2: Unknown fill materials	Exterior of Site buildings	PCA#30 – Importation of Fill Material of Unknown Quality	On-Site	PAHs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Soil and Groundwater
APEC 3: Former sheet metal shop	Western portion	Former Metal Fabrication (PCA#34 metal fabrication)	Off-Site	VOCs, metals, As, Sb, Se, Cr (VI), Hg, B-HWS, CN-, low or high pH	Groundwater
APEC 4: Autobody shop	Western portion	PCA#10 commercial auto body shops	Off-Site	VOCs, PHCs, BTEX	Groundwater

Notes:

1, Area of Potential Environmental Concern means the area on, in or under a phase one study area where one or more contaminants are potentially present, as determined through the P1 ESA, including through,

- (a) Identification of past or present uses on, in or under the phase one property, and
- (b) Identification of potentially contaminating activities.

2. Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a phase one study area

3. When completing this column, identify all contaminants of potential concern using the Method Groups as identified in the "Protocol for in the Assessment of Properties under Part XV.1 of the Environmental Protection Act, March 9, 2004, amended as of July 1, 2011, as specified below:

ABNs	PCB:	Metals	Electrical Conductivity
CPs	PAHs	As, Sb, Se	Cr (Vi)
1,4- Dioxane		THMs	Na
Dioxins/Furans, PCDDs/PCDFs		VOCs	B-HWS
Ocs	BTEX	Cl-	high pH
PHCs	Ca,	Mg	CN-
			low pH

4. When submitting a record of site condition for filing, a copy of this table must be attached

SAR = Sodium Adsorption Ratio

Table IV

PHCs = Petroleum Hydrocarbons

PCBs = Polychlorinated Biphenyl

(1) Distances are approximately only. Precise distances are not possible due to the age of some listings and the aggregation and/or loss of addresses.

(2) Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D (O.Reg. 153/04. as amended) which is occurring or has occurred in a Phase One Study Area

**APPENDIX A: LIMITATION OF LIABILITY, SCOPE OF REPORT,
AND THIRD-PARTY RELIANCE**

Limitation of Liability, Scope of Report, and Third Party Reliance

The information presented in this report is based on visual site inspection and following the general guidance provided in the O.Reg.153/04 as amended. The objectives of the investigation were to evaluate the current environmental conditions of the subject property. The observations, conclusions and recommendations presented in this report are based on the site conditions existing at the time of BIG's site visit. If in the future, a Record of Site Condition (RSC) is pursued or additional information is become available or revealed through intrusive on-site testing, BIG should be contacted to re-evaluate the information presented in this report, if required.

This report was prepared for the exclusive use of Oakville Argus Cross LP. BIG's consent is required to reproduce this report in whole or in part. BIG is not responsible for any decision made or reliance by a third party makes of this report. BIG is not responsible for any damages, suffered by a third-party as result of the use of this report.

APPENDIX C: QUALIFICATION OF ASSESSORS

Qualifications of Assessors

Ms. Rebecca Morrison is a project manager at BIG and has over six years of experience in conducting Phase One and Phase Two Environmental Site Assessments. Rebecca has in a depth knowledge of O.Reg.153/04 and has been involved in numerous Record of Site Condition submissions.

Mr. Darko Strajin, is the Managing Partner of BIG, he is a licensed engineer in province of Ontario and has over 25 years of consulting experience. Darko has been involved in conducting Phase One and Phase Two Environmental Site Assessments for more than 20 years. Darko has been responsible for successfully managing numerous environmental investigations and site assessments. Darko has in depth knowledge of Environmental Regulations including experience in geology, hydrogeology and geotechnical engineering that enables him to provide superior services to his clients in the environmental industry. Darko has registered with the MECP as QP (Environmental Site Assessment) and has filed number of Record of Site Condition documents over the years.

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Limited Partnership ("ERIS") using various sources of information, including information provided by Federal and Provincial government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Limited Partnership. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " * " indicates that the database will no longer be updated. See the individual database description for more information.

Abandoned Aggregate Inventory:

Provincial [AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.*

Government Publication Date: Sept 2002*

Aggregate Inventory:

Provincial [AGR](#)

The Ontario Ministry of Natural Resources maintains a database of all active pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

Government Publication Date: Up to Sep 2020

Abandoned Mine Information System:

Provincial [AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

Government Publication Date: 1800-Oct 2018

Anderson's Waste Disposal Sites:

Private [ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1860s-Present

Aboveground Storage Tanks:

Provincial [AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

Government Publication Date: May 31, 2014

Automobile Wrecking & Supplies:

Private [AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

Government Publication Date: 1999-Jun 30, 2020

Borehole:

Provincial [BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

Government Publication Date: 1875-Jul 2018

Certificates of Approval:

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

Government Publication Date: 1985-Oct 30, 2011*

Dry Cleaning Facilities:

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

Environment and Climate Change Canada cites the coronavirus pandemic as an explanation for delays in releasing data pursuant to requests.

Government Publication Date: Jan 2004-Dec 2017

Commercial Fuel Oil Tanks:

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Jul 31, 2020

Chemical Manufacturers and Distributors:

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

Government Publication Date: 1999-Jan 31, 2020

Chemical Register:

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

Government Publication Date: 1999-Jun 30, 2020

Compressed Natural Gas Stations:

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

Government Publication Date: Dec 2012 - Sep 2020

Inventory of Coal Gasification Plants and Coal Tar Sites:

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.*

Government Publication Date: Apr 1987 and Nov 1988*

Compliance and Convictions:

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

Government Publication Date: 1989-Dec 2019

Certificates of Property Use:

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

Government Publication Date: 1994-Sep 30, 2020

Drill Hole Database:

Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

Government Publication Date: 1886 - Sep 2019

Delisted Fuel Tanks:

Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

Government Publication Date: Jul 31, 2020

Environmental Activity and Sector Registry:

Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

Government Publication Date: Oct 2011-Sep 30, 2020

Environmental Registry:

Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

Government Publication Date: 1994-Sep 30, 2020

Environmental Compliance Approval:

Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

Government Publication Date: Oct 2011-Sep 30, 2020

Environmental Effects Monitoring:

Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

Government Publication Date: 1992-2007*

ERIS Historical Searches:

Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

Government Publication Date: 1999-Jul 31, 2020

Environmental Issues Inventory System:

Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

Government Publication Date: 1992-2001*

Emergency Management Historical Event:

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

Government Publication Date: Dec 31, 2016

Environmental Penalty Annual Report:

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

Government Publication Date: Jan 1, 2011 - Dec 31, 2019

List of Expired Fuels Safety Facilities:

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Jul 31, 2020

Federal Convictions:

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

Government Publication Date: 1988-Jun 2007*

Contaminated Sites on Federal Land:

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

Government Publication Date: Jun 2000-Apr 2020

Fisheries & Oceans Fuel Tanks:

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

Government Publication Date: 1964-Sep 2019

Federal Identification Registry for Storage Tank Systems (FIRSTS):

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

Government Publication Date: May 31, 2018

Fuel Storage Tank:

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Jul 31, 2020

Fuel Storage Tank - Historic:

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

Government Publication Date: Pre-Jan 2010*

Ontario Regulation 347 Waste Generators Summary:

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

Government Publication Date: 1986-Jul 31, 2020

Greenhouse Gas Emissions from Large Facilities:

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO₂ eq).

Government Publication Date: 2013-Dec 2017

TSSA Historic Incidents:

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

Government Publication Date: 2006-June 2009*

Indian & Northern Affairs Fuel Tanks:

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

Government Publication Date: 1950-Aug 2003*

Fuel Oil Spills and Leaks:

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

Government Publication Date: Jul 31, 2020

Landfill Inventory Management Ontario:

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

Government Publication Date: Feb 28, 2019

Canadian Mine Locations:

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

Government Publication Date: 1998-2009*

Mineral Occurrences:

Provincial

[MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

Government Publication Date: 1846-Jan 2020

National Analysis of Trends in Emergencies System (NATES):

Federal

[NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

Government Publication Date: 1974-1994*

Non-Compliance Reports:

Provincial

[NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

Government Publication Date: Dec 31, 2018

National Defense & Canadian Forces Fuel Tanks:

Federal

[NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

Government Publication Date: Up to May 2001*

National Defense & Canadian Forces Spills:

Federal

[NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

Government Publication Date: Mar 1999-Apr 2018

National Defence & Canadian Forces Waste Disposal Sites:

Federal

[NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

Government Publication Date: 2001-Apr 2007*

National Energy Board Pipeline Incidents:

Federal

[NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

Government Publication Date: 2008-Mar 31, 2020

National Energy Board Wells:

Federal

[NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

Government Publication Date: 1920-Feb 2003*

National Environmental Emergencies System (NEES):

Federal

NEES

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

Government Publication Date: 1974-2003*

National PCB Inventory:

Federal

NPCB

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

Government Publication Date: 1988-2008*

National Pollutant Release Inventory:

Federal

NPRI

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

Government Publication Date: 1993-May 2017

Oil and Gas Wells:

Private

OGWE

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at www.nickles.com.

Government Publication Date: 1988-Aug 31, 2020

Ontario Oil and Gas Wells:

Provincial

OOGW

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

Government Publication Date: 1800-Jun 2020

Inventory of PCB Storage Sites:

Provincial

OPCB

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

Government Publication Date: 1987-Oct 2004; 2012-Dec 2013

Orders:

Provincial

ORD

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

Government Publication Date: 1994-Sep 30, 2020

Canadian Pulp and Paper:

Private

PAP

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014

Parks Canada Fuel Storage Tanks:

Federal

PCFT

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

Government Publication Date: 1920-Jan 2005*

Pesticide Register:

Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

Government Publication Date: Oct 2011-Sep 30, 2020

Pipeline Incidents:

Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

The coronavirus pandemic is cited by the agency responsible for tank regulations and data as an explanation for delays in releasing data pursuant to requests.

Government Publication Date: Feb 28, 2017

Private and Retail Fuel Storage Tanks:

Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

Government Publication Date: 1989-1996*

Permit to Take Water:

Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all PTTW's on the registry such as OWRA s. 34 - Permit to take water.

Government Publication Date: 1994-Sep 30, 2020

Ontario Regulation 347 Waste Receivers Summary:

Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

Government Publication Date: 1986-2016

Record of Site Condition:

Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

Government Publication Date: 1997-Sept 2001, Oct 2004-Sep 2020

Retail Fuel Storage Tanks:

Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

Government Publication Date: 1999-Jun 30, 2020

Scott's Manufacturing Directory:

Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

Government Publication Date: 1992-Mar 2011*

Ontario Spills:

Provincial SPL

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

The Ministry of the Environment, Conservation and Parks cites the coronavirus pandemic as an explanation for delays in releasing data pursuant to requests.

Government Publication Date: 1988-Nov 2019

Wastewater Discharger Registration Database:

Provincial [SRDS](#)

Information under this heading is combination of the following 2 programs. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment maintained a database of all direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation; Mining; Petroleum Refining; Organic Chemicals; Inorganic Chemicals; Pulp & Paper; Metal Casting; Iron & Steel; and Quarries. All sampling information is now collected and stored within the Sample Result Data Store (SRDS).

Government Publication Date: 1990-Dec 31, 2017

Anderson's Storage Tanks:

Private [TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1915-1953*

Transport Canada Fuel Storage Tanks:

Federal [TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

Government Publication Date: 1970-Aug 2018

Variations for Abandonment of Underground Storage Tanks:

Provincial [VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

Government Publication Date: Jul 31, 2020

Waste Disposal Sites - MOE CA Inventory:

Provincial [WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

Government Publication Date: Oct 2011-Sep 30, 2020

Waste Disposal Sites - MOE 1991 Historical Approval Inventory:

Provincial [WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30th, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

Government Publication Date: Up to Oct 1990*

Water Well Information System:

Provincial [WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

Government Publication Date: Apr 30, 2020

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

2. Request Parameters

Municipal Address (Municipal address mandatory for cities, towns or regions)

Unit Number	Street Number 227	Street Name Cross Avenue	PO Box
Lot Number	Concession	Geographic Township	
City/Town/Village Oakville		Province ON	Postal Code L6J 2W9

Present Property

1. Owner	Date of Ownership (yyyy/mm/dd)
Tenant (if applicable)	

Previous Property

1. Owner	Date of Ownership (yyyy/mm/dd)
Tenant (if applicable)	

3. Search Parameters

Search Parameters	Specify Year(s) Requested
Environmental concerns (General correspondence, occurrence reports, abatement)	2003-present
Orders	2003-present
Spills	2003-present
Investigations/prosecutions ► Owner and tenant information must be provided	2003-present
Waste Generator number/classes	2003-present

Files older than 2 years may require \$60.00 retrieval cost. There is no guarantee that records responsive to your request will be located.

4. Environmental Compliance Approvals/Certificates of Approval

Environmental Compliance Approvals/Certificates of Approval	SD	Specify Year(s) Requested
air - emissions	<input type="checkbox"/>	All years
renewable energy	<input type="checkbox"/>	All years
water - mains, treatment, ground level, standpipes & elevated storage, pumping stations (local & booster)	<input type="checkbox"/>	All years
sewage - sanitary, storm, treatment, stormwater, leachate & leachate treatment & sewage pump stations	<input type="checkbox"/>	All years
waste water - industrial discharge	<input type="checkbox"/>	All years
waste sites - disposal, landfill sites, transfer stations, processing sites, incinerator sites	<input type="checkbox"/>	All years
waste systems - haulers: sewage, non-hazardous & hazardous waste, mobile waste processing units, PCB destruction	<input type="checkbox"/>	All years

Proponent information must be provided and Environmental Compliance Approval/Certificate of Approval number(s) (if known). 1985 and prior records are searched manually. Search fees in excess of \$300.00 may be incurred, depending on the types and years to be searched. Specify Approval number(s) (if known). If supporting documents are also required, mark SD box and specify type e.g. maps, plans, reports, etc.

RE: Request for Environmental Information

Public Information Services <publicinformationservices@tssa.org>

Thu 2020-12-17 3:10 PM

To: Aiden Belfrage <abelfrage@brownfieldigi.com>

Good afternoon,

Thank you for your request for confirmation of public information.

I have searched the below noted addresses and I have located the following record:

Good afternoon Madam/Sir,

I would like to submit a request for Environmental Information for the following properties in Oakville, Ontario:

1. 227 Cross Avenue
2. 233 Cross Avenue
3. 562 Trafalgar Road
4. 570 Trafalgar Road
5. 568 Argus Road
6. 217 Cross Avenue
7. 571 Argus Road
8. 222 Cross Avenue
9. 238 Cross Avenue
10. 603 Argus Road

As part of our historical review for a Phase I ESA, I am requesting that the Technical Standards and Safety Authority (TSSA), Safety Fuel Division, review its database to identify to us any records of aboveground/underground storage tanks, spills, incidents, complaints, notices, tanks removals and/or remediation, etc. with the TSSA for the above-mentioned site.

Your earliest attention to this matter is much appreciated. For your convenience, you may email me or call me with any information you may have for the properties.

Regards,

Aiden Belfrage

Opta Historical Environmental Services EnviroscanTM Terms and Conditions

Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.
