4.11.1 Enlargement, Repair or Renovation

A legally existing *non-complying* building or *structure* may be enlarged, repaired or renovated provided that the enlargement, repair or renovation does not create or further increase a situation of non-compliance.

4.11.2 Buildings and Structures Associated with Uses that are Non-Complying

Buildings or *structures* associated with existing *non-complying uses* permitted under Section 4.3.2 of this By-law may be enlarged, repaired, or renovated provided that the enlargement, repair, or renovation does not create or further increase a situation of non-compliance.

4.11.3 Legally Existing, Non-complying Lots

A legally existing vacant *lot* in existence prior to the effective date of this By-law that does not meet the *lot area* and/or *lot frontage* and/or *lot depth* requirements of the applicable *Zone*, may be used and *buildings* and *structures* thereon may be erected, enlarged, repaired or renovated provided the use conforms with the By-law and the *buildings* or *structures* comply with all of the other provisions of this By-law and the *lot* can be adequately serviced with approved water and wastewater services.

Nothing in this Section shall permit the replacement of a non-complying *building* or *structure* if a *building* or *structure* could be constructed in compliance with this By-law.

Potential area where a legal non-conforming building could be expanded without first requiring relief from the Zoning By-law.

If a lot or feature is undersized, a landowner can bring a lot closer to compliance (i.e. add more land to the lot, add more parking spaces) and still take advantage of these non-conformity clauses. Contact a zoning officer in Building Services for more information.

Should the Town, Region, or Province require land as part of a road widening or approval, this clause would be relied upon to ensure the affected lot remains compliant with the Zoning By-law. All regulations of this By-law are covered by this Section including yards, parking, and landscaping.

Staff would review planning applications to ensure known future land acquisitions are accounted for in the review stage. Contact a planner in the Planning Services department for more information.
