Good Morning Dan,

Thank you for sharing this information. We will document this in the Project File Report and will identify the need for future consultation and coordination with Oakville Hydro.

Sincerely,

Mir

Hi Mir,

I'm sure this was noted on your field evaluations/inspections, but to confirm, Oakville Hydro has an overhead pole line on Lakeshore Rd W in this area. There are two overhead high voltage circuits as well as a neutral conductor and low voltage wires crossing the bridge area between poles #1623 and #1621. This is shown in the GIS screen shot below. The two circuits, neutral and low voltage lines will need to remain in service during the bridge replacement/reconstruction. Please consider this once you move to detailed design, and keep us informed of any progress. The main contact for the project will Daniela Motoc, Chief Engineer, Distribution, copied here.

Thanks,

Dan

Good Morning,

This is a gentle reminder regarding the ongoing Public Information Centre for McCraney Creek Bridge Replacement Municipal Class Environmental Assessment (Schedule 'B'). Comments are being requested by **June 30, 2022**. Please refer to the [project webpage](#) for more information.

Sincerely,

Mir

**Subject:** McCraney Creek Bridge Replacement - Notice of Study Commencement and Online Public Information Centre

6 June 2022

## **McCraney Creek Bridge Replacement Notice of Study Commencement and Online Public Information Centre Municipal Class Environmental Assessment**

The Town of Oakville has initiated an environmental assessment for the replacement of the McCraney Creek Bridge that is located over McCraney Creek, on Lakeshore Road West immediately to the east

of Fourth Line. The bridge was built in 1940. Due to its deteriorating condition, ongoing erosion and risk of flooding, the bridge requires replacement. The purpose of this email is to share the attached notice with you and invite you to participate in the upcoming Public Information Centre (PIC).

The Town is hosting a Public Information Centre to share the recommended solution for bridge replacement. Information materials will be available on the [project webpage](#), from **June 16 to June 30, 2022**. We encourage you to participate in the PIC by reviewing the information materials and providing any comments on the online comment form by **June 30, 2022**. You are also invited to attend the **Online Presentation on Tuesday, June 21, 2022, at 6 p.m.** where there will be an opportunity to ask any questions of the study team and provide comments. Please refer to the attached notice and visit project webpage for further details.

Sincerely,

Mir

ADDITIONAL INFORMATION	QUALIFYING INFORMATION
BRIDGE REPLACEMENT AND CREEK REALIGNMENT	

**MEMBERS NOTIFIED: The following owners of underground infrastructure in the area of your excavation site have been notified.**

Member Name	Station Code	Initial Status
BELL CANADA - PLANNING (BCPRE)	BCPRE	Notification sent
G-TEL FOR ENBRIDGE GAS PRE-ENGINEERING (LEGACY UNION) (ENPHAL)	ENPHAL	Notification sent

**MAP SELECTION: Map Selection provided by the excavator through Ontario One Call's map tool or through agent interpretation by phone**

## **IMPORTANT INFORMATION: Please read.**

### **Defining "NC" - Non-Compliant**

- Non-compliant members have not met their obligations under section 5 of the Ontario Underground Infrastructure Notification Act. ON1Call has notified these members to ensure they are aware of your excavation. In this circumstance, should the member not respond, the excavator should contact the member directly to obtain their locates or request a status. ON1Call will not be provided with a locate status from the member regarding this request and therefore, cannot provide further information at this time. For locate status contact information please refer to our website.

### **You have a valid locate when...**

- You have reviewed your locate request information for accuracy. UPDATE your request IMMEDIATELY if changes are needed and obtain a corrected locate request confirmation.

**NOTE: Intersecting streets are often suggested by Ontario One Call's system, in some circumstances they may not reflect the closest intersecting streets to your excavation. You can change the intersecting streets before submitting the request by going through the "Review" page of your locate request, and editing any inaccurate information. Intersecting streets are for reference only, and unless you change the streets manually, you will not be asked to correct them if they are chosen by the system. If you don't agree with a street name, make sure to edit the request before you submit it, if you found a mistake after submitting the request, update your requests immediately on the web portal.**

- You have obtained locates or clearances from all ON1Call members listed in this request before beginning your dig.

#### **You've met your obligations when...**

- You respect the marks and instructions provided by the locators and dig with care; the marks and locator instructions MUST MATCH. You must wait for responses from all members notified on your locate request before beginning to dig..
- You have obtained any necessary permits from the municipality in which you are digging.
- You have made Ontario One Call aware if you have come across any new or unlisted infrastructure in the public right of way AND stopped digging to prevent damages while we review.
- You have arranged for locates for your private lines on your private property - where applicable.

#### **What does "Cleared" mean in the "Initial Status" section?**

1. The information that you have provided about your dig will not affect that member's underground infrastructure and they have provided you with a clearance, if anything about your excavation changes, please ensure that you update your request immediately.

#### **What are the images under "Map Selection"?**

1. A drawing created by an excavator directly within Ontario One Call's Web request tool, this is expected to be an accurate rendition of the dig site, and it is the excavator's responsibility to ensure the location matches the information they provide under the 'Dig Location'; section OR;
2. A drawing created by an Ontario One Call agent, this drawing is based on a verbal description by phone of the area by the excavator. Agents may create drawings that are larger than the proposed dig to minimize risk of interpretation. It is the excavator's responsibility to review these map selections for accuracy. Changes can be made by the excavator through the Web request tool, to learn how visit [www.ontarioonecall.ca](http://www.ontarioonecall.ca).
3. All drawings dictate which members are notified.
